Division of Youth Services

2011  
ANNUAL  
REPORT

**STATE OF MISSISSIPPI**  
Phil Bryant, Governor  
**DEPARTMENT OF HUMAN SERVICES**  
Richard A. Berry  
Executive Director

January 31, 2012

Dear Colleagues:

Thank you very much for another outstanding year of support to children and families across our great state. We are making a difference in the habilitation and rehabilitation of youth committed to our care. The reality remains that these juveniles represent the future leadership of the State of Mississippi and deserve our best for their best. Oakley Youth Development Center epitomizes our existence.

Respectfully,

A handwritten signature in blue ink that reads "Richard A. Berry".

Richard A. Berry

## **DIVISION OF YOUTH SERVICES COMMUNITY SERVICES PROGRAMS AND SERVICES**

The primary goals of Community Services are:

- To ensure a balanced approach of accountability, competency development and community safety in providing quality services that address the rehabilitative needs of youth, individual victims and the community;
- To test the effectiveness of community-based programs in decreasing recidivism at the state training school, thus diverting youth from out of home placement and providing appropriate wrap-around services in the community;
- To establish multi-agency, cooperative partnerships with local communities; and,
- To establish uniformity in DYS services, case management practices and procedures.

**Prevention, Diversion, Probation, Parole and Aftercare Services** are provided to juveniles referred to the youth courts in Mississippi. Individual, group and family counseling, intake, pre-court investigation, case management, and referral and placement services are provided by Youth Services Counselors.

The **Adolescent Offender Program (AOP)** is a community-based partnership between the Mississippi Department of Human Services/Division of Youth Services (MDHS/DYS), mental health agencies, community agencies and local multi-agency councils. The AOP creates a mechanism within communities to coordinate services, share resources and reduce the number of young offenders placed in a state training school. The program, which focuses on the family, seeks to assist local communities in coordinating and providing services to families at-risk.

## **DIVISION OF YOUTH SERVICES INSTITUTIONAL SERVICES AND PROGRAMS**

DYS provides institutional care to delinquent juveniles committed to MDHS/DYS custody. The psycho-educational program offered at the Oakley Training School (OTS) begins with the arrival of the youth on campus with a standardized admission, intake, and orientation process conducted by designated staff. Once youth are assessed, they are placed into an appropriate housing unit and staff begins developing a comprehensive individualized service plan involving treatment programs, counseling, recreation, and education. DYS is a separate non-public school district at Williams School on the campus of Oakley Training School and complies with standards established by the Mississippi Department of Education (MDE). After students are assessed in the area of mental health, physical, academic and vocational aptitude, and given a complete physical by a physician, and evaluated by a dentist, they are placed in academic and/or vocational classes, based on these results and the cumulative educational records received by Williams School.

**Local Area Network (LAN) Computer Labs** are housed at Williams School. A thirteen (13) work station network lab provides remedial and job interest assessment, and a fourteen

(14) work station lab provides AZTEC software for remedial work, grade level course work and enrichment. Scientific Learning software, a cognitive learning tool is used in these labs.

**Interactive Video Network (IVN)** allows students in GED and gifted classes to take electronic field trips and view satellite downlinks of various programs. The room is also cost effective by conserving travel expenses beneficial to all departments by giving staff access to interactive video-conferences with staff counterparts. The rooms were equipped as part of the Star School Project through the MS Educational Television Interactive Video Network (METIVN).

**Library/Media Services** are provided to all students. Williams School has licensed library/media specialists in accordance with MDE accreditation standards. Teachers are also assisted with instructional planning and delivery.

**Character Education Training** is offered to students at the institutions. The aim of the program is to develop responsible citizenship skills.

**The General Education Diploma (GED) Preparation and Testing** is offered to eligible students at Williams School. Students tested at the training schools have an average pass rate of 80%.

**A.C.T. Preparation and Testing** are offered to students who have graduated from high school or earned a GED.

**Vocational Technical Education** funds and grants have been received to improve educational programs at Williams School. Vocational training programs include: Welding, Building Trades, Small Engine Repair, Technology Preparation, Custodial Maintenance and Basic Business Computer. Eligible students may continue the vocational class they began at their home school for a certificate of completion or begin a new course.

**Individual and Group Therapy** counseling emphasizes reality therapy, social skills development, anger management, sex education, including information on sexually transmitted diseases, and abstinence, drug and alcohol awareness, character education.

**Diagnostic and Evaluation** allows staff to gather medical, dental, recreational, educational, vocational, and psychological data on each student. Upon admission each student receives a complete physical and a mental health assessment, personality profiles, drug and alcohol abuse risk questionnaire, suicide risk assessment, achievement testing, and a trauma risk assessment tool called the **Trauma Symptom Checklist for Children**. This information is used to develop an individualized service plan for each youth which identifies treatment goals and rehabilitative programs to be completed during the commitment time. Prior to release, an individualized Transition Plan will be developed to identify community resources to support continued rehabilitation upon returning home.

The **Mississippi Arts Commission** -- Community in Schools Grant Project is currently serving students at OTS in Creative Writing and Art classes, taught by licensed professional instructors from Hinds Community College.

**The PX2 model from Pacific Institute** that builds strength of character and strong self-belief, so that youth can stand up to negative influences and maintain confidence in their own decisions. It is designed to be a life-changing experience, not just for teens but for the entire family.

---

Youth Court statistical data contained herein is based upon information reported to Mississippi Department of Human Services, Division of Youth Services (MDHS/DYS) by local youth courts, court staff, court clerks and county staff assigned to the local youth courts. As with large data collection projects of this type involving thousands of cases and dozens of reporters (i.e., county intake, county counselors, school attendance officers, and Youth Services' staff) from various jurisdictions, the assignment of an error rate is difficult. However, no system is perfect, and a small error rate, both human and mechanical, should be considered when analyzing data. Also, note that different counties count only one offense and one disposition per referral, while others may count multiple offenses and multiple dispositions per referral.

## A COMPARISON BY YEAR
