## ***What do parents say about the Cool Kids program?***

“I was glad to have a doctor to go to when my daughter, Karen, got hurt. I felt good knowing that her doctor was watching out for her. He gave her a check-up and even gave her the shots she needed to start school, and it was all free.”

“It’s not easy raising a son alone, but through the Cool Kids program I know he will get the medical attention he needs. That’s a big weight off of my shoulders.”

“I don’t have the money to buy my children everything they want, but now I can give them the health care they need through the Cool Kids program. Since my children have been in the program they have missed less school and have even gotten better grades.”
