What do parents say about the EPSDT Program?

"I was glad to have a doctor to go to when my daughter, Karen, got hurt. I felt good knowing that her doctor was watching out for her. He gave her a check-up and even gave her the shots she needed to start school, and it was all free."

"It's not easy raising a son alone, but through EPSDT I know he will get the medical attention he needs. That's a big weight off of my shoulders."

"I don't have the money to buy my children everything they want, but now I can give them the health care they need through EPSDT. Since my children have been in the program they have missed less school and have even gotten better grades."
