**Statement from Warren A. Jones, M.D., FAAFP  
Executive Director  
Office of the Governor  
Division of Medicaid**

Jackson, Mississippi - - State Medicaid Director Warren A. Jones, M.D., FAAFP said today, "I am confident our legislative process will soon ensure a Medicaid program for the greater good of our 720,000 Mississippians we are privileged to serve. These beneficiaries depend on us all for their vital health care. We will continue to provide our lawmakers the information needed to make informed decisions. When decisions are finalized, we will communicate the facts to our beneficiaries and to our providers."
