

The Division of Medicaid is grateful for the many hours of work, and for the insightful contributions, the Governor's Healthcare Commission devoted to their report. This process is continuing on schedule. The Healthcare Commission's report will be finalized and formally presented to our Executive Director Rica Lewis-Payton on July 9<sup>th</sup> at 2pm. After review, applicable recommendations will be made to Governor Musgrove and to key members of our legislature. Ultimately our collective goal is to continue providing quality healthcare for all of our qualified beneficiaries.
