INSTITUTIONS

The Mississippi Department of Corrections (MDOC) Division of Institutions has oversight of three state institutions, 15 county regional facilities, four private prisons, the Classification and Records Division, Treatment and Programs Division, and Agriculture Enterprises. The division is under the leadership of Deputy Commissioner Archie Longley.

Mississippi State Penitentiary

Earnest Lee, Superintendent
P.O. Box 1057
Parchman, MS 38738
662-745-6611

The Mississippi State Penitentiary (MSP) is the state's oldest Institution, opening in 1901. It is located on approximately 18,000 acres at Parchman in Sunflower County. MSP has a capacity of approximately 4,648 beds, which consist of 58 support buildings and seven different housing units, ranging in size from 56 beds at Unit 42 (Hospital) to 1,521 beds at Unit 29.

MSP houses only male offenders who are classified as protective custody, administrative segregation, cell telephone management, administrative long-term segregation, and death row. MSP custody levels consist of minimum, medium, and close custody. All male death row offenders are housed at in Unit 29. MSP offenders provide more than 100,000 hours of free offender labor each year to adjacent municipalities and counties, as well as assisting other state agencies. There are approximately 986 (filled/vacant security and non-security) employees at MSP.

MSP is also the largest state prison and is the base for the Agricultural Enterprises Division. In 2013, 5,722 acres of vegetables, rice, wheat, soybeans and corn were farmed. The institution was reaccredited by the American Correctional Association in November 2011.

Central Mississippi Correctional Facility

Johnnie Denmark, Superintendent
P. O. Box 88550
Pearl, MS 39208
601-932-2880

The Central Mississippi Correctional Facility (CMCF) sits on 171.3 acres in Rankin County and serves as the receiving and classification facility. All offenders sentenced to the Mississippi Department of Corrections are brought to CMCF, except for male death row inmates who are processed at MSP.

Each offender undergoes a needs assessment and is screened, tested for STD, HIV, and other medical conditions, provided a psychiatric evaluation and questioned regarding his or her educational level. The results, along with the offender's conviction and institutional behavior, help establish the offender's classification.

CMCF is the second oldest state facility, having opened in February 1986. It includes 13 housing units with a capacity of 3,665 beds. Of the three state prisons, CMCF is the only facility to house female inmates, including minimum and medium security, close custody and death row. The prison also has minimum and medium custody male offenders, as well as some maximum custody offenders (close custody). CMCF also houses male offenders with special needs and male offenders who are disabled and require medical treatment in the Jackson area. In December 2012, a Youthful Offender Unit was opened for offenders 17 years and younger and vulnerable 18 and 19 year olds. The institution was reaccredited by the American Correctional Association in November 2011.

South Mississippi Correctional Institution

Ron King, Superintendent
P.O. Box 1419
Leakesville, MS 39451
601-394-5600

The South Mississippi Correctional Institution (SMCI), located in Greene County, is the newest state facility, having opened in 1989 and occupies approximately 360 acres in Leakesville. There are 16 housing units at SMCI with a capacity of 3,282 beds.

SMCI houses male offenders classified as minimum, medium and close custody levels as well as protective custody and long-term segregation.

SMCI is the first prison in the state to receive accreditation from the American Correctional Association. It was ACA reaccredited in August 2011. It also is the first state prison in Mississippi to be accredited by the National Commission on Correctional Health Care.

SMCI is the only state institution with a para-military “boot camp program.” The Regimented Inmate Discipline (RID) Program seeks to divert offenders from criminal behavior and instill work ethics through rehabilitative and treatment elements as well as community service work projects.

MISSISSIPPI PRISON AGRICULTURE ENTERPRISES

Mississippi Prison Agricultural Enterprises (MPAE) is responsible for the farming operations at Mississippi State Penitentiary (MSP) in Parchman and at the South Mississippi Correctional Institution (SMCI) in Leakesville. The majority of the farming activity takes place at MSP.

The MPAE program utilizes offender labor in all areas to decrease inmate idleness and to cut budget costs for taxpayers. Minimum and medium custody offenders are given the opportunity to participate in planting, harvesting and processing the crops. During FY 2013, offenders worked 419,340 hours in the Agricultural Enterprises program.

On a daily basis, MPAE work approximately 110 A-Custody offenders in their operation. During the vegetable season, MPAE will work an additional 150 offenders per day in the vegetable fields and processing.

MPAE is comprised of Row Crop, Vegetable Crop, Farm Shop, Feed Mill, Poultry, Processing and Cold Storage operations.

For the crop year 2013, MPAE planted approximately 1,056 acres of vegetables, 115 acres of rice, 571 acres of corn, 811 acres of wheat and 2,692 acres of soybeans.

The corn is utilized by the Feed Mill in the production of feed for the Poultry operation. During FY 2013, the Feed Mill produced 9 different feed rations for chicken consumption and produced 1,541 tons at a price to livestock of \$487,959.80.

Approximately 10,000 bushels of the rice harvested each year is milled by MPAE and fed to the offenders.

The Processing operation is comprised of both hand processing and machine processing by the offenders. Processed vegetables are blanched and frozen in 10-pound bags for offender consumption.

The Cold Storage operation stores all frozen vegetables processed by MPAE and all frozen products purchased from outside vendors and is responsible for filling orders for the three main facilities and the Community Work Centers and Restitution Centers. The Cold Storage operation handles in excess of 6 million pounds of product annually.

The Poultry facility is in full production with 36,000 layer hens. For FY 2013, a total of 312,909 dozen eggs were delivered to MDOC Food Services with a non-cash value of \$370,667.

In FY 2013 non-cash sales for vegetables and egg sales were \$1,079,853. The FY 2013 total pounds of vegetable non-cash sales were 1,598,982. There were 312,909 dozen non-cash egg sales.

Vegetable value is based on the USDA Atlanta Market Report. All processed vegetables and eggs were provided to the MDOC Food Service Department. MPAE sold vegetables to employees to generate cash dollars of \$4,033.00.

The inventory of commodities carried over from FY 2013 had a value of \$417,972. This figure includes feed mill inventory, seed, fertilizer, and chemicals not expended during FY 2013.

On June 30, 2013, the Agricultural Enterprises Special Fund had a balance of \$748,395.92. Cash income received for Agricultural Enterprises, including deposits in transit, totaled \$2,620,400.74.

The work staff includes 17 positions. At the present time 15 positions are filled and MPAE has four (4) contract employees with MDOC.

MPAE is comprised of Row Crop, Vegetable Crop, Farm Shop, Feed Mill, Poultry, Processing and Cold Storage operations.

ALCOHOL & DRUG TREATMENT PROGRAMS

TREATMENT & PROGRAMS

The Division of Treatment and Programs plays an integral part in the day-to-day operations of Mississippi's correctional facilities. This division is responsible for providing programs and services to the offenders that are designed to improve the offender and his chances of success upon release from incarceration and also to comply with court orders pertaining to the rights of the inmates.

The Division of Treatment and Programs is making every effort to provide treatment and programs to the maximum number of offenders possible while operating within allocated funds.

Treatment and programs provided include Education, Alcohol and Drug Program, Pre-Release, Administrative Remedy Program, Inmate Legal Assistance Program, Religious Programs, Library Services, and Recreation Services.

EDUCATION PROGRAMS

The underlying philosophy of the MDOC Education Department is that every human being, regardless of background or station in life, has worth, dignity, and potential. The degree to which any individual effectively functions in society is directly proportionate to the extent to which he realizes his self-worth and develops his potential.

MDOC constantly strives to increase the number and quality of program offerings. The mission of the schools is to offer classes which will enable all offenders who desire training to enroll, succeed and leave prison with the skills needed to succeed in the workplace.

Education programs offered to offenders in FY 2013 resulted in 4,551 offenders successfully completing General Education Development (GED) – 493, Vocational Trades – 644 and Alcohol & Drugs – 3,414.

Academic and Vocational classes are offered at the three state institutions, Mississippi State Penitentiary (MSP), Central Mississippi Correctional Facility (CMCF) and South Mississippi Correctional Institution (SMCI).

Academic classes are offered at the Youthful Offender Unit (YOU) school to offenders 17 years and younger and vulnerable 18 and 19 year olds as determined by the Commissioner of Corrections.

Vocational night classes are offered at MSP through Mississippi Delta Com-

munity College and at SMCI through Jones County Junior College.

Offenders who wish to enroll in college classes may take correspondence courses. College tuition fees are the responsibility of the offender.

All academic and vocational instructors are licensed by the Mississippi Department of Education (MDE). Current licensure is maintained at all times.

In the Adult Basic Education (ABE) program, priority is given to the offenders court-ordered to obtain their GED. The academic classes are governed by MDOC policy and procedures and by regulations of the State Board for Community Colleges. When possible, classes are departmentalized and grouped according to ability levels ranging from basic literacy through adult secondary (GED). The length of time a student is enrolled varies, with the ultimate goal being the attainment of a GED certificate.

In FY 2013, the ABE program exceeded the state minimum performance measurement requirements in all academic areas.

Vocational programs are governed by MDOC policy and procedures and by regulations of the Mississippi Department of Education. Vocational instructors are licensed by the MDE. Current licensure by the vocational instructors is maintained at all times.

ALCOHOL & DRUG TREATMENT PROGRAMS

The mission of the Alcohol and Drug (A&D) Program is to provide treatment and rehabilitation services to offenders who have a history of substance abuse problems or who commit alcohol and drug related crimes. The goal is to correct the offender's attitude and behavior that supports criminal thinking.

These services are provided to offenders who are court ordered alcohol and drug treatment, parole pending completion, Intensive Supervision Program, MDOC referrals or volunteer.

The A&D Program also provides after-care information and referrals as needed regarding primary and secondary A&D treatment facilities, Alcoholics Anonymous, Narcotics Anonymous and Cocaine Anonymous meetings and home placement.

In FY 2013, 3,414 offenders enrolled/served in A&D programs with 1,520 completions.

A&D Programs in Facilities

Mississippi State Penitentiary provides a long-term program for offenders with at least six to thirty months remaining on their sentence. The Alcohol and Drug Therapeutic Community Treatment Center units house 432 therapeutic treatment beds, group rooms and classrooms with clinical staff office space adjacent to each housing unit.

A traditional 12-week A&D program based on the principles of Alcoholics Anonymous is provided for special needs (disability) offenders. A 12-week basic A&D education only program is provided to eligible offenders housed in high risk, lockdown, and protective custody units.

Central Mississippi Correctional Facility provides both a 12-week traditional A&D program and a long-term program (6 months to 12 months) for female offenders. In addition, a 12-week treatment program is available for special needs (disability) male offenders.

South Mississippi Correctional Institution provides both a traditional 12-

week A&D program and a long term (6 month) program for general population offenders. An A&D component is provided in the Regimented Inmate Discipline (RID) Program.

The Residential Substance Abuse Treatment (RSAT) Program is operated in the Flowood, Pike and Quitman Community Pre-Release Centers for offenders who are within six months to one year of release. The offenders provide work in the community during the day and attend A&D classes in the evening.

A&D treatment programs based on the principals of Alcoholics Anonymous are offered in 14 Community Work Centers. Offenders provide work in the community during the day and attend evening treatment sessions weekly.

The Flowood Community Work Center offers a 12-week A&D program for female offenders who are expiring their sentence, paroling or are being released on Intensive Supervision Program (ISP).
