With the funds herein appropriated, it is the intention of the Legislature that it shall be the agency's responsibility to make certain that funds required to be appropriated for "Personal Services" for Fiscal Year 2013 do not exceed Fiscal Year 2012 funds appropriated for that purpose, unless programs or positions are added to the agency's Fiscal Year 2012 budget by the Mississippi Legislature. Based on data provided by the Legislative Budget Office, the State Personnel Board shall determine and publish the projected annual cost to fully fund all appropriated positions in compliance with the provisions of this act. It shall be the responsibility of the agency head to ensure that no single personnel action increases this projected annual cost and/or the Fiscal Year 2012 appropriations for "Personal Services" when annualized, with the exception of escalated funds.

If, at the time the agency takes any action to change "Personal Services," the State Personnel Board determines that the agency has taken an action which would cause the agency to exceed this projected annual cost or the Fiscal Year 2012 "Personal Services" appropriated level, when annualized, then only those actions which reduce the projected annual cost and/or the appropriation requirement will be processed by the State Personnel Board until such time as the requirements of this provision are met.

Any transfers or escalations shall be made in accordance with the terms, conditions and procedures established by law or allowable under the terms set forth within this act. The State Personnel Board shall not escalate positions without written approval from the Department of Finance and Administration. The Department of Finance and Administration shall not provide written approval to escalate any funds for salaries and/or positions without proof of availability of new or additional funds above the appropriated level.

No general funds authorized to be expended herein shall be used to replace federal funds and/or other special funds which are being used for salaries authorized under the provisions of this act and which are withdrawn and no longer available.

**SECTION 4.** The Commissioner of Public Safety may, on a case-by-case basis, within funds available, recommend that corrective salary adjustments be made to the compensation of employees of the Department of Public Safety where an inequity was created between employees of equivalent capacity by previous application of the agency appropriation acts. Any such corrective salary adjustment plan must have prior approval by the State Personnel Board. Such adjustments will not be retroactive.

Any funds in the Salary, Wages and Fringe Benefits major object of expenditure may be used to purchase accumulated compensatory time within funds available.

**SECTION 5.** The Commissioner of Public Safety shall have the authority to transfer both positions and/or State General Funds appropriated herein from any division within the Department of Public Safety to any other division within the Department of Public Safety, not to exceed twenty-five percent (25%).

**SECTION 6.** It is the intent of the Legislature that the local governments pay for part of the computer cost of the Mississippi Justice Information Center by maintaining their contribution to the Department of Public Safety.

**SECTION 7.** It is the intention of the Legislature that the Department of Public Safety designate certain employees to aid the Division of Crime Laboratories in the billing and collecting of all fees charged for services rendered by the Division of Crime Laboratories.

**SECTION 8.** No part of the funds appropriated herein shall be transferred to, expended by, or used, directly or indirectly, for the benefit of any public relations, publicity or publication activities of any other state agency, department or officer, nor shall any personnel paid with funds appropriated herein be transferred or assigned to any other state agency, department or officer for public relations, publicity, or publication activities of such office.

**SECTION 9.** It is the intention of the Legislature that the Department of Public Safety shall have the authority to receive, budget and expend funds from any source in accordance with the rules and regulations of the Department of Finance and Administration in a manner consistent with the escalation of federal funds.

**SECTION 10.** It is the intention of the Legislature that the Department of Public Safety shall not issue citations for violations of speed limits on a quota basis. No funds expended under this act shall be used for such quota-based citations for violations of speed limits.
