

5/16 1:35 P

Chapter No. 524
12/SS26/R884SG
JN / TBE

SENATE BILL NO. 2700

Originated in Senate Liz Welch Secretary

SENATE BILL NO. 2700

AN ACT TO DEFINE STANDARDS FOR THE LICENSURE OF PRESCRIBED PEDIATRIC EXTENDED CARE (PPEC) CENTERS BY THE STATE DEPARTMENT OF HEALTH; TO PROVIDE DEFINITIONS; TO PROVIDE EXEMPTIONS; TO REQUIRE A LICENSE TO OPERATE A PPEC CENTER IN THIS STATE; TO SET FEES FOR LICENSURE; TO AUTHORIZE THE STATE DEPARTMENT OF HEALTH TO PROMULGATE RULES AND REGULATIONS TO IMPLEMENT STANDARDS FOR THE LICENSURE OF PPEC CENTERS; TO AMEND SECTION 43-13-117, MISSISSIPPI CODE OF 1972, TO AUTHORIZE MEDICAID REIMBURSEMENT FOR THE OPERATION OF PPEC CENTERS; TO AMEND SECTION 41-7-191, MISSISSIPPI CODE OF 1972, TO DIRECT THE STATE DEPARTMENT OF HEALTH TO ISSUE A CERTIFICATE OF NEED TO A NONPROFIT VENTURE FOR A SKILLED NURSING FACILITY TO PROVIDE SKILLED NURSING CARE FOR VENTILATOR DEPENDENT OR OTHERWISE MEDICALLY DEPENDENT PEDIATRIC PATIENTS WHO REQUIRE MEDICAL AND NURSING CARE OR REHABILITATION SERVICES; AND FOR RELATED PURPOSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. **Legislative intent.** It is the intent of the Legislature to develop, establish, and enforce licensure and basic standards for prescribed pediatric extended care centers in order to assure that the centers provide the necessary family-centered medical, developmental, physiological, nutritional, psychosocial and family training services.

SECTION 2. **Definitions.** As used in this act, the following terms shall be defined as provided in this section:

(a) "Prescribed pediatric extended care center" or "PPEC center" means any building or buildings, or other place, whether operated for profit or not, which undertakes through its ownership or management to provide basic nonresidential services to three (3) or more medically dependent or technologically dependent children who are not related to the owner or operator by blood, marriage or adoption and who require such services. Infants and children considered for admission to a PPEC center

must have complex medical conditions that require continual care. Prerequisites for admission are a prescription from the child's attending physician and consent of a parent or guardian.

(b) "Licensing agency" means the State Department of Health.

(c) "Basic services" include, but are not limited to, development, implementation and monitoring of a comprehensive protocol of care, developed in conjunction with the parent or guardian, which specifies the medical, nursing, psychosocial and developmental therapies required by the medically dependent or technologically dependent child served as well as the caregiver training needs of the child's legal guardian.

(d) "Owner or operator" means a licensee.

(e) "Medical records" means medical records maintained in accordance with accepted professional standards and practices as specified in the rules implementing this act.

(f) "Medically dependent or technologically dependent child" means a child who because of a medical condition requires continuous therapeutic interventions or skilled nursing supervision which must be prescribed by a licensed physician and administered by, or under the direct supervision of, a licensed registered nurse.

(g) "Supportive services or contracted services" include, but are not limited to, speech therapy, occupational therapy, physical therapy, social work, developmental, child life and psychological services.

SECTION 3. PPEC centers to be licensed; exemptions. (1)

The licensing agency shall license and regulate all PPEC centers in the state that are not exempt under subsection (2) of this section. A license issued by the department is required for the operation of a PPEC center in this state.

(2) A facility, institution or other place operated by the federal government or any agency of the federal government is exempt from the provisions of this chapter.

SECTION 4. Separate licenses required; fee; exemption. (1) Separate licenses are required for PPEC centers maintained on separate premises, even though they are operated under the same management. Separate licenses are not required for separate buildings on the same grounds.

(2) An applicant or licensee shall pay a fee for each license application and annual license renewal under this act and applicable rules. The amount of the fee shall be Twenty Dollars (\$20.00) for each licensed bed in the PPEC, with a minimum fee of Five Hundred Dollars (\$500.00) and a maximum fee of Five Thousand Dollars (\$5,000.00).

(3) County-operated or municipally operated PPEC centers applying for licensure under this act are exempt from the payment of license fees.

SECTION 5. Application for license; zoning. In addition to any other information in the application that is required by the licensing agency, the application must contain the location of the facility for which a license is sought and documentation, signed by the appropriate local government official, which states that the applicant has met local zoning requirements.

SECTION 6. Background screening. The licensing agency shall require criminal record background screening and fingerprinting for personnel by the Mississippi Department of Public Safety.

SECTION 7. Denial, suspension, revocation of licensure; administrative fines; grounds. (1) The licensing agency may deny, revoke, and suspend a license and impose an administrative fine as provided in Section 8 of this act for the violation of any provision of this act, or applicable rules.

(2) Any of the following actions by a PPEC center or its employee is grounds for action by the licensing agency against a PPEC center or its employee:

(a) An intentional or negligent act materially affecting the health or safety of children in the PPEC center.

(b) A violation of the provisions of this act, or applicable rules.

(c) Multiple and repeated violations of this act or of minimum standards or rules adopted under this act.

SECTION 8. Administrative fines; corrective action plans.

(1) (a) If the licensing agency determines that a PPEC center is not in compliance with this act, or applicable rules, the licensing agency may request that the PPEC center submit a corrective action plan that demonstrates a good-faith effort to remedy each violation by a specific date, subject to the approval of the licensing agency.

(b) The licensing agency may fine a PPEC center or employee found in violation of this act, or applicable rules, in an amount not to exceed Five Hundred Dollars (\$500.00) for each violation. Such fine may not exceed Five Thousand Dollars (\$5,000.00) in the aggregate.

(c) The failure to correct a violation by the date set by the licensing agency, or the failure to comply with an approved corrective action plan, is a separate violation for each day that the failure continues, unless the licensing agency approves an extension to a specific date.

(2) In determining if a fine is to be imposed and in fixing the amount of any fine, the licensing agency shall consider the following factors:

(a) The gravity of the violation, including the probability that death or serious physical or emotional harm to a child will result or has resulted, the severity of the actual or

potential harm, and the extent to which the provisions of the applicable statutes or rules were violated.

(b) Actions taken by the owner or operator to correct violations.

(c) Any previous violations.

(d) The financial benefit to the PPEC center of committing or continuing the violation.

SECTION 9. Closing of a PPEC center. Whenever a PPEC center voluntarily discontinues operation, it shall, at least thirty (30) days before the discontinuance of operation, inform each child's legal guardian of the fact and the proposed time of the discontinuance.

SECTION 10. Rules establishing standards. (1) To carry out the intention of the Legislature to provide safe and sanitary facilities and healthful programs, the licensing agency shall adopt and publish rules to implement the provisions of this act, which shall include reasonable and fair standards. Any conflict between these standards and those that may be set forth in local, county or city ordinances shall be resolved in favor of those having statewide effect. Those standards shall relate to:

(a) The assurance that PPEC services are family centered and provide individualized medical, developmental and family training services.

(b) The maintenance of PPEC centers, based upon the size of the structure and number of children, relating to plumbing, heating, lighting, ventilation and other building conditions, including adequate space, which will ensure the health, safety, comfort and protection from fire of the children served.

(c) The appropriate provisions of the most recent edition of the "Life Safety Code" shall be applied.

(d) The number and qualifications of all personnel who have responsibility for the care of the children served.

(e) All sanitary conditions within the PPEC center and its surroundings, including water supply, sewage disposal, food handling and general hygiene, and maintenance thereof, which will ensure the health and comfort of children served.

(f) Programs and basic services promoting and maintaining the health and development of the children served and meeting the training needs of the children's parents or legal guardians.

(g) Supportive, contracted, other operational and transportation services.

(h) Maintenance of appropriate medical records, data and information relative to the children and programs. Those records shall be maintained in the facility for inspection by the agency.

(2) The licensing agency shall adopt rules to ensure that:

(a) No child attends a PPEC center for more than twelve (12) hours within a twenty-four-hour period.

(b) No PPEC center provides services other than those provided to medically or technologically dependent children.

SECTION 11. Construction and renovation; requirements. The requirements for the construction or renovation of a PPEC center shall comply with:

(a) All state and local requirements pertaining to building construction standards, including plumbing, electrical code, glass, manufactured buildings, accessibility for the physically disabled;

(b) The minimum standards for physical facilities in the Mississippi Child Care Standards; and

(c) The standards or rules adopted under this act.

SECTION 12. Penalty for violation. Any person who violates any provisions of this act is guilty of a misdemeanor and, upon conviction, shall be punished by a fine of not more than Ten

Thousand Dollars (\$10,000.00). Each day of continuing violation is a separate offense.

SECTION 13. Section 43-13-117, Mississippi Code of 1972, is amended as follows:

43-13-117. (A) Medicaid as authorized by this article shall include payment of part or all of the costs, at the discretion of the division, with approval of the Governor, of the following types of care and services rendered to eligible applicants who have been determined to be eligible for that care and services, within the limits of state appropriations and federal matching funds:

(1) Inpatient hospital services.

(a) The division shall allow thirty (30) days of inpatient hospital care annually for all Medicaid recipients. Medicaid recipients requiring transplants shall not have those days included in the transplant hospital stay count against the thirty-day limit for inpatient hospital care. Precertification of inpatient days must be obtained as required by the division.

(b) From and after July 1, 1994, the Executive Director of the Division of Medicaid shall amend the Mississippi Title XIX Inpatient Hospital Reimbursement Plan to remove the occupancy rate penalty from the calculation of the Medicaid Capital Cost Component utilized to determine total hospital costs allocated to the Medicaid program.

(c) Hospitals will receive an additional payment for the implantable programmable baclofen drug pump used to treat spasticity that is implanted on an inpatient basis. The payment pursuant to written invoice will be in addition to the facility's per diem reimbursement and will represent a reduction of costs on the facility's annual cost report, and shall not exceed Ten Thousand Dollars (\$10,000.00) per year per recipient.

(2) Outpatient hospital services.

(a) Emergency services. The division shall allow six (6) medically necessary emergency room visits per beneficiary per fiscal year.

(b) Other outpatient hospital services. The division shall allow benefits for other medically necessary outpatient hospital services (such as chemotherapy, radiation, surgery and therapy), including outpatient services in a clinic or other facility that is not located inside the hospital, but that has been designated as an outpatient facility by the hospital, and that was in operation or under construction on July 1, 2009, provided that the costs and charges associated with the operation of the hospital clinic are included in the hospital's cost report. In addition, the Medicare thirty-five-mile rule will apply to those hospital clinics not located inside the hospital that are constructed after July 1, 2009. Where the same services are reimbursed as clinic services, the division may revise the rate or methodology of outpatient reimbursement to maintain consistency, efficiency, economy and quality of care.

(3) Laboratory and x-ray services.

(4) Nursing facility services.

(a) The division shall make full payment to nursing facilities for each day, not exceeding fifty-two (52) days per year, that a patient is absent from the facility on home leave. Payment may be made for the following home leave days in addition to the fifty-two-day limitation: Christmas, the day before Christmas, the day after Christmas, Thanksgiving, the day before Thanksgiving and the day after Thanksgiving.

(b) From and after July 1, 1997, the division shall implement the integrated case-mix payment and quality monitoring system, which includes the fair rental system for property costs and in which recapture of depreciation is eliminated. The division may reduce the payment for hospital leave and therapeutic home leave days to the lower of the case-mix

category as computed for the resident on leave using the assessment being utilized for payment at that point in time, or a case-mix score of 1.000 for nursing facilities, and shall compute case-mix scores of residents so that only services provided at the nursing facility are considered in calculating a facility's per diem.

(c) From and after July 1, 1997, all state-owned nursing facilities shall be reimbursed on a full reasonable cost basis.

(d) When a facility of a category that does not require a certificate of need for construction and that could not be eligible for Medicaid reimbursement is constructed to nursing facility specifications for licensure and certification, and the facility is subsequently converted to a nursing facility under a certificate of need that authorizes conversion only and the applicant for the certificate of need was assessed an application review fee based on capital expenditures incurred in constructing the facility, the division shall allow reimbursement for capital expenditures necessary for construction of the facility that were incurred within the twenty-four (24) consecutive calendar months immediately preceding the date that the certificate of need authorizing the conversion was issued, to the same extent that reimbursement would be allowed for construction of a new nursing facility under a certificate of need that authorizes that construction. The reimbursement authorized in this subparagraph (d) may be made only to facilities the construction of which was completed after June 30, 1989. Before the division shall be authorized to make the reimbursement authorized in this subparagraph (d), the division first must have received approval from the Centers for Medicare and Medicaid Services (CMS) of the change in the state Medicaid plan providing for the reimbursement.

(e) The division shall develop and implement, not later than January 1, 2001, a case-mix payment add-on determined

by time studies and other valid statistical data that will reimburse a nursing facility for the additional cost of caring for a resident who has a diagnosis of Alzheimer's or other related dementia and exhibits symptoms that require special care. Any such case-mix add-on payment shall be supported by a determination of additional cost. The division shall also develop and implement as part of the fair rental reimbursement system for nursing facility beds, an Alzheimer's resident bed depreciation enhanced reimbursement system that will provide an incentive to encourage nursing facilities to convert or construct beds for residents with Alzheimer's or other related dementia.

(f) The division shall develop and implement an assessment process for long-term care services. The division may provide the assessment and related functions directly or through contract with the area agencies on aging.

The division shall apply for necessary federal waivers to assure that additional services providing alternatives to nursing facility care are made available to applicants for nursing facility care.

(5) Periodic screening and diagnostic services for individuals under age twenty-one (21) years as are needed to identify physical and mental defects and to provide health care treatment and other measures designed to correct or ameliorate defects and physical and mental illness and conditions discovered by the screening services, regardless of whether these services are included in the state plan. The division may include in its periodic screening and diagnostic program those discretionary services authorized under the federal regulations adopted to implement Title XIX of the federal Social Security Act, as amended. The division, in obtaining physical therapy services, occupational therapy services, and services for individuals with speech, hearing and language disorders, may enter into a cooperative agreement with the State Department of Education for

the provision of those services to handicapped students by public school districts using state funds that are provided from the appropriation to the Department of Education to obtain federal matching funds through the division. The division, in obtaining medical and mental health assessments, treatment, care and services for children who are in, or at risk of being put in, the custody of the Mississippi Department of Human Services may enter into a cooperative agreement with the Mississippi Department of Human Services for the provision of those services using state funds that are provided from the appropriation to the Department of Human Services to obtain federal matching funds through the division.

(6) Physician's services. The division shall allow twelve (12) physician visits annually. All fees for physicians' services that are covered only by Medicaid shall be reimbursed at ninety percent (90%) of the rate established on January 1, 1999, and as may be adjusted each July thereafter, under Medicare (Title XVIII of the federal Social Security Act, as amended). The division may develop and implement a different reimbursement model or schedule for physician's services provided by physicians based at an academic health care center and by physicians at rural health centers that are associated with an academic health care center. From and after January 1, 2010, all fees for physicians' services that are covered only by Medicaid shall be increased to ninety percent (90%) of the rate established on January 1, 2010, and as may be adjusted each July thereafter, under Medicare.

(7) (a) Home health services for eligible persons, not to exceed in cost the prevailing cost of nursing facility services, not to exceed twenty-five (25) visits per year. All home health visits must be precertified as required by the division.

(b) [Repealed]

(8) Emergency medical transportation services. On January 1, 1994, emergency medical transportation services shall be reimbursed at seventy percent (70%) of the rate established under Medicare (Title XVIII of the federal Social Security Act, as amended). "Emergency medical transportation services" shall mean, but shall not be limited to, the following services by a properly permitted ambulance operated by a properly licensed provider in accordance with the Emergency Medical Services Act of 1974 (Section 41-59-1 et seq.): (i) basic life support, (ii) advanced life support, (iii) mileage, (iv) oxygen, (v) intravenous fluids, (vi) disposable supplies, (vii) similar services.

(9) (a) Legend and other drugs as may be determined by the division.

The division shall establish a mandatory preferred drug list. Drugs not on the mandatory preferred drug list shall be made available by utilizing prior authorization procedures established by the division.

The division may seek to establish relationships with other states in order to lower acquisition costs of prescription drugs to include single source and innovator multiple source drugs or generic drugs. In addition, if allowed by federal law or regulation, the division may seek to establish relationships with and negotiate with other countries to facilitate the acquisition of prescription drugs to include single source and innovator multiple source drugs or generic drugs, if that will lower the acquisition costs of those prescription drugs.

The division shall allow for a combination of prescriptions for single source and innovator multiple source drugs and generic drugs to meet the needs of the beneficiaries, not to exceed five (5) prescriptions per month for each noninstitutionalized Medicaid beneficiary, with not more than two (2) of those prescriptions being for single source or innovator multiple source drugs.

The executive director may approve specific maintenance drugs for beneficiaries with certain medical conditions, which may be prescribed and dispensed in three-month supply increments.

Drugs prescribed for a resident of a psychiatric residential treatment facility must be provided in true unit doses when available. The division may require that drugs not covered by Medicare Part D for a resident of a long-term care facility be provided in true unit doses when available. Those drugs that were originally billed to the division but are not used by a resident in any of those facilities shall be returned to the billing pharmacy for credit to the division, in accordance with the guidelines of the State Board of Pharmacy and any requirements of federal law and regulation. Drugs shall be dispensed to a recipient and only one (1) dispensing fee per month may be charged. The division shall develop a methodology for reimbursing for restocked drugs, which shall include a restock fee as determined by the division not exceeding Seven Dollars and Eighty-two Cents (\$7.82).

The voluntary preferred drug list shall be expanded to function in the interim in order to have a manageable prior authorization system, thereby minimizing disruption of service to beneficiaries.

Except for those specific maintenance drugs approved by the executive director, the division shall not reimburse for any portion of a prescription that exceeds a thirty-one-day supply of the drug based on the daily dosage.

The division shall develop and implement a program of payment for additional pharmacist services, with payment to be based on demonstrated savings, but in no case shall the total payment exceed twice the amount of the dispensing fee.

All claims for drugs for dually eligible Medicare/Medicaid beneficiaries that are paid for by Medicare must be submitted to

Medicare for payment before they may be processed by the division's online payment system.

The division shall develop a pharmacy policy in which drugs in tamper-resistant packaging that are prescribed for a resident of a nursing facility but are not dispensed to the resident shall be returned to the pharmacy and not billed to Medicaid, in accordance with guidelines of the State Board of Pharmacy.

The division shall develop and implement a method or methods by which the division will provide on a regular basis to Medicaid providers who are authorized to prescribe drugs, information about the costs to the Medicaid program of single source drugs and innovator multiple source drugs, and information about other drugs that may be prescribed as alternatives to those single source drugs and innovator multiple source drugs and the costs to the Medicaid program of those alternative drugs.

Notwithstanding any law or regulation, information obtained or maintained by the division regarding the prescription drug program, including trade secrets and manufacturer or labeler pricing, is confidential and not subject to disclosure except to other state agencies.

(b) Payment by the division for covered multisource drugs shall be limited to the lower of the upper limits established and published by the Centers for Medicare and Medicaid Services (CMS) plus a dispensing fee, or the estimated acquisition cost (EAC) as determined by the division, plus a dispensing fee, or the providers' usual and customary charge to the general public.

Payment for other covered drugs, other than multisource drugs with CMS upper limits, shall not exceed the lower of the estimated acquisition cost as determined by the division, plus a dispensing fee or the providers' usual and customary charge to the general public.

Payment for nonlegend or over-the-counter drugs covered by the division shall be reimbursed at the lower of the division's estimated shelf price or the providers' usual and customary charge to the general public.

The dispensing fee for each new or refill prescription, including nonlegend or over-the-counter drugs covered by the division, shall be not less than Three Dollars and Ninety-one Cents (\$3.91), as determined by the division.

The division shall not reimburse for single source or innovator multiple source drugs if there are equally effective generic equivalents available and if the generic equivalents are the least expensive.

It is the intent of the Legislature that the pharmacists providers be reimbursed for the reasonable costs of filling and dispensing prescriptions for Medicaid beneficiaries.

(10) (a) Dental care that is an adjunct to treatment of an acute medical or surgical condition; services of oral surgeons and dentists in connection with surgery related to the jaw or any structure contiguous to the jaw or the reduction of any fracture of the jaw or any facial bone; and emergency dental extractions and treatment related thereto. On July 1, 2007, fees for dental care and surgery under authority of this paragraph (10) shall be reimbursed as provided in subparagraph (b). It is the intent of the Legislature that this rate revision for dental services will be an incentive designed to increase the number of dentists who actively provide Medicaid services. This dental services rate revision shall be known as the "James Russell Dumas Medicaid Dental Incentive Program."

The division shall annually determine the effect of this incentive by evaluating the number of dentists who are Medicaid providers, the number who and the degree to which they are actively billing Medicaid, the geographic trends of where dentists are offering what types of Medicaid services and other statistics

pertinent to the goals of this legislative intent. This data shall be presented to the Chair of the Senate Public Health and Welfare Committee and the Chair of the House Medicaid Committee.

(b) The Division of Medicaid shall establish a fee schedule, to be effective from and after July 1, 2007, for dental services. The schedule shall provide for a fee for each dental service that is equal to a percentile of normal and customary private provider fees, as defined by the Ingenix Customized Fee Analyzer Report, which percentile shall be determined by the division. The schedule shall be reviewed annually by the division and dental fees shall be adjusted to reflect the percentile determined by the division.

(c) For fiscal year 2008, the amount of state funds appropriated for reimbursement for dental care and surgery shall be increased by ten percent (10%) of the amount of state fund expenditures for that purpose for fiscal year 2007. For each of fiscal years 2009 and 2010, the amount of state funds appropriated for reimbursement for dental care and surgery shall be increased by ten percent (10%) of the amount of state fund expenditures for that purpose for the preceding fiscal year.

(d) The division shall establish an annual benefit limit of Two Thousand Five Hundred Dollars (\$2,500.00) in dental expenditures per Medicaid-eligible recipient; however, a recipient may exceed the annual limit on dental expenditures provided in this paragraph with prior approval of the division.

(e) The division shall include dental services as a necessary component of overall health services provided to children who are eligible for services.

(f) This paragraph (10) shall stand repealed on July 1, 2012.

(11) Eyeglasses for all Medicaid beneficiaries who have (a) had surgery on the eyeball or ocular muscle that results in a vision change for which eyeglasses or a change in eyeglasses is

medically indicated within six (6) months of the surgery and is in accordance with policies established by the division, or (b) one (1) pair every five (5) years and in accordance with policies established by the division. In either instance, the eyeglasses must be prescribed by a physician skilled in diseases of the eye or an optometrist, whichever the beneficiary may select.

(12) Intermediate care facility services.

(a) The division shall make full payment to all intermediate care facilities for the mentally retarded for each day, not exceeding eighty-four (84) days per year, that a patient is absent from the facility on home leave. Payment may be made for the following home leave days in addition to the eighty-four-day limitation: Christmas, the day before Christmas, the day after Christmas, Thanksgiving, the day before Thanksgiving and the day after Thanksgiving.

(b) All state-owned intermediate care facilities for the mentally retarded shall be reimbursed on a full reasonable cost basis.

(13) Family planning services, including drugs, supplies and devices, when those services are under the supervision of a physician or nurse practitioner.

(14) Clinic services. Such diagnostic, preventive, therapeutic, rehabilitative or palliative services furnished to an outpatient by or under the supervision of a physician or dentist in a facility that is not a part of a hospital but that is organized and operated to provide medical care to outpatients. Clinic services shall include any services reimbursed as outpatient hospital services that may be rendered in such a facility, including those that become so after July 1, 1991. On July 1, 1999, all fees for physicians' services reimbursed under authority of this paragraph (14) shall be reimbursed at ninety percent (90%) of the rate established on January 1, 1999, and as may be adjusted each July thereafter, under Medicare (Title XVIII

of the federal Social Security Act, as amended). The division may develop and implement a different reimbursement model or schedule for physician's services provided by physicians based at an academic health care center and by physicians at rural health centers that are associated with an academic health care center.

(15) Home- and community-based services for the elderly and disabled, as provided under Title XIX of the federal Social Security Act, as amended, under waivers, subject to the availability of funds specifically appropriated for that purpose by the Legislature.

(16) Mental health services. Approved therapeutic and case management services (a) provided by an approved regional mental health/intellectual disability center established under Sections 41-19-31 through 41-19-39, or by another community mental health service provider meeting the requirements of the Department of Mental Health to be an approved mental health/intellectual disability center if determined necessary by the Department of Mental Health, using state funds that are provided from the appropriation to the State Department of Mental Health and/or funds transferred to the department by a political subdivision or instrumentality of the state and used to match federal funds under a cooperative agreement between the division and the department, or (b) provided by a facility that is certified by the State Department of Mental Health to provide therapeutic and case management services, to be reimbursed on a fee for service basis, or (c) provided in the community by a facility or program operated by the Department of Mental Health. Any such services provided by a facility described in subparagraph (b) must have the prior approval of the division to be reimbursable under this section. After June 30, 1997, mental health services provided by regional mental health/intellectual disability centers established under Sections 41-19-31 through 41-19-39, or by hospitals as defined in Section 41-9-3(a) and/or their subsidiaries and divisions, or by

psychiatric residential treatment facilities as defined in Section 43-11-1, or by another community mental health service provider meeting the requirements of the Department of Mental Health to be an approved mental health/intellectual disability center if determined necessary by the Department of Mental Health, shall not be included in or provided under any capitated managed care pilot program provided for under paragraph (24) of this section.

(17) Durable medical equipment services and medical supplies. Precertification of durable medical equipment and medical supplies must be obtained as required by the division. The Division of Medicaid may require durable medical equipment providers to obtain a surety bond in the amount and to the specifications as established by the Balanced Budget Act of 1997.

(18) (a) Notwithstanding any other provision of this section to the contrary, as provided in the Medicaid state plan amendment or amendments as defined in Section 43-13-145(10), the division shall make additional reimbursement to hospitals that serve a disproportionate share of low-income patients and that meet the federal requirements for those payments as provided in Section 1923 of the federal Social Security Act and any applicable regulations. It is the intent of the Legislature that the division shall draw down all available federal funds allotted to the state for disproportionate share hospitals. However, from and after January 1, 1999, public hospitals participating in the Medicaid disproportionate share program may be required to participate in an intergovernmental transfer program as provided in Section 1903 of the federal Social Security Act and any applicable regulations.

(b) The division shall establish a Medicare Upper Payment Limits Program, as defined in Section 1902(a)(30) of the federal Social Security Act and any applicable federal regulations, for hospitals, and may establish a Medicare Upper Payment Limits Program for nursing facilities. The division shall

assess each hospital and, if the program is established for nursing facilities, shall assess each nursing facility, for the sole purpose of financing the state portion of the Medicare Upper Payment Limits Program. The hospital assessment shall be as provided in Section 43-13-145(4)(a) and the nursing facility assessment, if established, shall be based on Medicaid utilization or other appropriate method consistent with federal regulations. The assessment will remain in effect as long as the state participates in the Medicare Upper Payment Limits Program. As provided in the Medicaid state plan amendment or amendments as defined in Section 43-13-145(10), the division shall make additional reimbursement to hospitals and, if the program is established for nursing facilities, shall make additional reimbursement to nursing facilities, for the Medicare Upper Payment Limits, as defined in Section 1902(a)(30) of the federal Social Security Act and any applicable federal regulations.

(19) (a) Perinatal risk management services. The division shall promulgate regulations to be effective from and after October 1, 1988, to establish a comprehensive perinatal system for risk assessment of all pregnant and infant Medicaid recipients and for management, education and follow-up for those who are determined to be at risk. Services to be performed include case management, nutrition assessment/counseling, psychosocial assessment/counseling and health education.

(b) Early intervention system services. The division shall cooperate with the State Department of Health, acting as lead agency, in the development and implementation of a statewide system of delivery of early intervention services, under Part C of the Individuals with Disabilities Education Act (IDEA). The State Department of Health shall certify annually in writing to the executive director of the division the dollar amount of state early intervention funds available that will be utilized as a certified match for Medicaid matching funds. Those funds then

shall be used to provide expanded targeted case management services for Medicaid eligible children with special needs who are eligible for the state's early intervention system. Qualifications for persons providing service coordination shall be determined by the State Department of Health and the Division of Medicaid.

(20) Home- and community-based services for physically disabled approved services as allowed by a waiver from the United States Department of Health and Human Services for home- and community-based services for physically disabled people using state funds that are provided from the appropriation to the State Department of Rehabilitation Services and used to match federal funds under a cooperative agreement between the division and the department, provided that funds for these services are specifically appropriated to the Department of Rehabilitation Services.

(21) Nurse practitioner services. Services furnished by a registered nurse who is licensed and certified by the Mississippi Board of Nursing as a nurse practitioner, including, but not limited to, nurse anesthetists, nurse midwives, family nurse practitioners, family planning nurse practitioners, pediatric nurse practitioners, obstetrics-gynecology nurse practitioners and neonatal nurse practitioners, under regulations adopted by the division. Reimbursement for those services shall not exceed ninety percent (90%) of the reimbursement rate for comparable services rendered by a physician.

(22) Ambulatory services delivered in federally qualified health centers, rural health centers and clinics of the local health departments of the State Department of Health for individuals eligible for Medicaid under this article based on reasonable costs as determined by the division.

(23) Inpatient psychiatric services. Inpatient psychiatric services to be determined by the division for

recipients under age twenty-one (21) that are provided under the direction of a physician in an inpatient program in a licensed acute care psychiatric facility or in a licensed psychiatric residential treatment facility, before the recipient reaches age twenty-one (21) or, if the recipient was receiving the services immediately before he or she reached age twenty-one (21), before the earlier of the date he or she no longer requires the services or the date he or she reaches age twenty-two (22), as provided by federal regulations. Precertification of inpatient days and residential treatment days must be obtained as required by the division. From and after July 1, 2009, all state-owned and state-operated facilities that provide inpatient psychiatric services to persons under age twenty-one (21) who are eligible for Medicaid reimbursement shall be reimbursed for those services on a full reasonable cost basis.

(26) Hospice care. As used in this paragraph, the term "hospice care" means a coordinated program of active professional medical attention within the home and outpatient and inpatient care that treats the terminally ill patient and family as a unit, employing a medically directed interdisciplinary team. The program provides relief of severe pain or other physical symptoms and supportive care to meet the special needs arising out of physical, psychological, spiritual, social and economic stresses that are experienced during the final stages of illness and during dying and bereavement and meets the Medicare requirements for participation as a hospice as provided in federal regulations.

(27) Group health plan premiums and cost sharing if it is cost-effective as defined by the United States Secretary of Health and Human Services.

(28) Other health insurance premiums that are cost-effective as defined by the United States Secretary of Health

and Human Services. Medicare eligible must have Medicare Part B before other insurance premiums can be paid.

(29) The Division of Medicaid may apply for a waiver from the United States Department of Health and Human Services for home- and community-based services for developmentally disabled people using state funds that are provided from the appropriation to the State Department of Mental Health and/or funds transferred to the department by a political subdivision or instrumentality of the state and used to match federal funds under a cooperative agreement between the division and the department, provided that funds for these services are specifically appropriated to the Department of Mental Health and/or transferred to the department by a political subdivision or instrumentality of the state.

(30) Pediatric skilled nursing services for eligible persons under twenty-one (21) years of age.

(31) Targeted case management services for children with special needs, under waivers from the United States Department of Health and Human Services, using state funds that are provided from the appropriation to the Mississippi Department of Human Services and used to match federal funds under a cooperative agreement between the division and the department.

(32) Care and services provided in Christian Science Sanatoria listed and certified by the Commission for Accreditation of Christian Science Nursing Organizations/Facilities, Inc., rendered in connection with treatment by prayer or spiritual means to the extent that those services are subject to reimbursement under Section 1903 of the federal Social Security Act.

(33) Podiatrist services.

(34) Assisted living services as provided through home- and community-based services under Title XIX of the federal Social Security Act, as amended, subject to the availability of funds specifically appropriated for that purpose by the Legislature.

(35) Services and activities authorized in Sections 43-27-101 and 43-27-103, using state funds that are provided from the appropriation to the Mississippi Department of Human Services and used to match federal funds under a cooperative agreement between the division and the department.

(36) Nonemergency transportation services for Medicaid-eligible persons, to be provided by the Division of Medicaid. The division may contract with additional entities to administer nonemergency transportation services as it deems necessary. All providers shall have a valid driver's license, vehicle inspection sticker, valid vehicle license tags and a standard liability insurance policy covering the vehicle. The division may pay providers a flat fee based on mileage tiers, or in the alternative, may reimburse on actual miles traveled. The division may apply to the Center for Medicare and Medicaid Services (CMS) for a waiver to draw federal matching funds for nonemergency transportation services as a covered service instead of an administrative cost. The PEER Committee shall conduct a performance evaluation of the nonemergency transportation program to evaluate the administration of the program and the providers of transportation services to determine the most cost-effective ways of providing nonemergency transportation services to the patients served under the program. The performance evaluation shall be completed and provided to the members of the Senate Public Health and Welfare Committee and the House Medicaid Committee not later than January 15, 2008.

(37) [Deleted]

(38) Chiropractic services. A chiropractor's manual manipulation of the spine to correct a subluxation, if x-ray demonstrates that a subluxation exists and if the subluxation has resulted in a neuromusculoskeletal condition for which manipulation is appropriate treatment, and related spinal x-rays performed to document these conditions. Reimbursement for

chiropractic services shall not exceed Seven Hundred Dollars (\$700.00) per year per beneficiary.

(39) Dually eligible Medicare/Medicaid beneficiaries. The division shall pay the Medicare deductible and coinsurance amounts for services available under Medicare, as determined by the division. From and after July 1, 2009, the division shall reimburse crossover claims for inpatient hospital services and crossover claims covered under Medicare Part B in the same manner that was in effect on January 1, 2008, unless specifically authorized by the Legislature to change this method.

(40) [Deleted]

(41) Services provided by the State Department of Rehabilitation Services for the care and rehabilitation of persons with spinal cord injuries or traumatic brain injuries, as allowed under waivers from the United States Department of Health and Human Services, using up to seventy-five percent (75%) of the funds that are appropriated to the Department of Rehabilitation Services from the Spinal Cord and Head Injury Trust Fund established under Section 37-33-261 and used to match federal funds under a cooperative agreement between the division and the department.

(42) Notwithstanding any other provision in this article to the contrary, the division may develop a population health management program for women and children health services through the age of one (1) year. This program is primarily for obstetrical care associated with low birth weight and preterm babies. The division may apply to the federal Centers for Medicare and Medicaid Services (CMS) for a Section 1115 waiver or any other waivers that may enhance the program. In order to effect cost savings, the division may develop a revised payment methodology that may include at-risk capitated payments, and may require member participation in accordance with the terms and conditions of an approved federal waiver.

(43) The division shall provide reimbursement, according to a payment schedule developed by the division, for smoking cessation medications for pregnant women during their pregnancy and other Medicaid-eligible women who are of child-bearing age.

(44) Nursing facility services for the severely disabled.

(a) Severe disabilities include, but are not limited to, spinal cord injuries, closed head injuries and ventilator dependent patients.

(b) Those services must be provided in a long-term care nursing facility dedicated to the care and treatment of persons with severe disabilities, and shall be reimbursed as a separate category of nursing facilities.

(45) Physician assistant services. Services furnished by a physician assistant who is licensed by the State Board of Medical Licensure and is practicing with physician supervision under regulations adopted by the board, under regulations adopted by the division. Reimbursement for those services shall not exceed ninety percent (90%) of the reimbursement rate for comparable services rendered by a physician.

(46) The division shall make application to the federal Centers for Medicare and Medicaid Services (CMS) for a waiver to develop and provide services for children with serious emotional disturbances as defined in Section 43-14-1(1), which may include home- and community-based services, case management services or managed care services through mental health providers certified by the Department of Mental Health. The division may implement and provide services under this waived program only if funds for these services are specifically appropriated for this purpose by the Legislature, or if funds are voluntarily provided by affected agencies.

(47) (a) Notwithstanding any other provision in this article to the contrary, the division may develop and implement disease management programs for individuals with high-cost chronic diseases and conditions, including the use of grants, waivers, demonstrations or other projects as necessary.

(b) Participation in any disease management program implemented under this paragraph (47) is optional with the individual. An individual must affirmatively elect to participate in the disease management program in order to participate, and may elect to discontinue participation in the program at any time.

(48) Pediatric long-term acute care hospital services.

(a) Pediatric long-term acute care hospital services means services provided to eligible persons under twenty-one (21) years of age by a freestanding Medicare-certified hospital that has an average length of inpatient stay greater than twenty-five (25) days and that is primarily engaged in providing chronic or long-term medical care to persons under twenty-one (21) years of age.

(b) The services under this paragraph (48) shall be reimbursed as a separate category of hospital services.

(49) The division shall establish copayments and/or coinsurance for all Medicaid services for which copayments and/or coinsurance are allowable under federal law or regulation, and shall set the amount of the copayment and/or coinsurance for each of those services at the maximum amount allowable under federal law or regulation.

(50) Services provided by the State Department of Rehabilitation Services for the care and rehabilitation of persons who are deaf and blind, as allowed under waivers from the United States Department of Health and Human Services to provide home- and community-based services using state funds that are provided from the appropriation to the State Department of Rehabilitation Services or if funds are voluntarily provided by another agency.

(51) Upon determination of Medicaid eligibility and in association with annual redetermination of Medicaid eligibility, beneficiaries shall be encouraged to undertake a physical examination that will establish a base-line level of health and identification of a usual and customary source of care (a medical home) to aid utilization of disease management tools. This physical examination and utilization of these disease management tools shall be consistent with current United States Preventive Services Task Force or other recognized authority recommendations.

For persons who are determined ineligible for Medicaid, the division will provide information and direction for accessing medical care and services in the area of their residence.

(52) Notwithstanding any provisions of this article, the division may pay enhanced reimbursement fees related to trauma care, as determined by the division in conjunction with the State Department of Health, using funds appropriated to the State Department of Health for trauma care and services and used to match federal funds under a cooperative agreement between the division and the State Department of Health. The division, in conjunction with the State Department of Health, may use grants, waivers, demonstrations, or other projects as necessary in the development and implementation of this reimbursement program.

(53) Targeted case management services for high-cost beneficiaries shall be developed by the division for all services under this section.

(54) Adult foster care services pilot program. Social and protective services on a pilot program basis in an approved foster care facility for vulnerable adults who would otherwise need care in a long-term care facility, to be implemented in an area of the state with the greatest need for such program, under the Medicaid Waivers for the Elderly and Disabled program or an assisted living waiver. The division may use grants, waivers, demonstrations or other projects as necessary in the development

and implementation of this adult foster care services pilot program.

(55) Therapy services. The plan of care for therapy services may be developed to cover a period of treatment for up to six (6) months, but in no event shall the plan of care exceed a six-month period of treatment. The projected period of treatment must be indicated on the initial plan of care and must be updated with each subsequent revised plan of care. Based on medical necessity, the division shall approve certification periods for less than or up to six (6) months, but in no event shall the certification period exceed the period of treatment indicated on the plan of care. The appeal process for any reduction in therapy services shall be consistent with the appeal process in federal regulations.

(56) Prescribed pediatric extended care centers services for medically dependent or technologically dependent children with complex medical conditions that require continual care as prescribed by the child's attending physician, as determined by the division.

(B) Notwithstanding any other provision of this article to the contrary, the division shall reduce the rate of reimbursement to providers for any service provided under this section by five percent (5%) of the allowed amount for that service. However, the reduction in the reimbursement rates required by this subsection (B) shall not apply to inpatient hospital services, nursing facility services, intermediate care facility services, psychiatric residential treatment facility services, pharmacy services provided under subsection (A) (9) of this section, or any service provided by the University of Mississippi Medical Center or a state agency, a state facility or a public agency that either provides its own state match through intergovernmental transfer or certification of funds to the division, or a service for which the federal government sets the reimbursement methodology and rate.

From and after January 1, 2010, the reduction in the reimbursement rates required by this subsection (B) shall not apply to physicians' services. In addition, the reduction in the reimbursement rates required by this subsection (B) shall not apply to case management services and home-delivered meals provided under the home- and community-based services program for the elderly and disabled by a planning and development district (PDD). Planning and development districts participating in the home- and community-based services program for the elderly and disabled as case management providers shall be reimbursed for case management services at the maximum rate approved by the Centers for Medicare and Medicaid Services (CMS).

(C) The division may pay to those providers who participate in and accept patient referrals from the division's emergency room redirection program a percentage, as determined by the division, of savings achieved according to the performance measures and reduction of costs required of that program. Federally qualified health centers may participate in the emergency room redirection program, and the division may pay those centers a percentage of any savings to the Medicaid program achieved by the centers' accepting patient referrals through the program, as provided in this subsection (C).

(D) Notwithstanding any provision of this article, except as authorized in the following subsection and in Section 43-13-139, neither (a) the limitations on quantity or frequency of use of or the fees or charges for any of the care or services available to recipients under this section, nor (b) the payments, payment methodology as provided below in this subsection (D), or rates of reimbursement to providers rendering care or services authorized under this section to recipients, may be increased, decreased or otherwise changed from the levels in effect on July 1, 1999, unless they are authorized by an amendment to this section by the Legislature. However, the restriction in this subsection shall

not prevent the division from changing the payments, payment methodology as provided below in this subsection (D), or rates of reimbursement to providers without an amendment to this section whenever those changes are required by federal law or regulation, or whenever those changes are necessary to correct administrative errors or omissions in calculating those payments or rates of reimbursement. The prohibition on any changes in payment methodology provided in this subsection (D) shall apply only to payment methodologies used for determining the rates of reimbursement for inpatient hospital services, outpatient hospital services and/or nursing facility services, except as required by federal law, and the federally mandated rebasing of rates as required by the Centers for Medicare and Medicaid Services (CMS) shall not be considered payment methodology for purposes of this subsection (D).

(E) Notwithstanding any provision of this article, no new groups or categories of recipients and new types of care and services may be added without enabling legislation from the Mississippi Legislature, except that the division may authorize those changes without enabling legislation when the addition of recipients or services is ordered by a court of proper authority.

(F) The executive director shall keep the Governor advised on a timely basis of the funds available for expenditure and the projected expenditures. If current or projected expenditures of the division are reasonably anticipated to exceed the amount of funds appropriated to the division for any fiscal year, the Governor, after consultation with the executive director, shall discontinue any or all of the payment of the types of care and services as provided in this section that are deemed to be optional services under Title XIX of the federal Social Security Act, as amended, and when necessary, shall institute any other cost containment measures on any program or programs authorized under the article to the extent allowed under the federal law

governing that program or programs. However, the Governor shall not be authorized to discontinue or eliminate any service under this section that is mandatory under federal law, or to discontinue or eliminate, or adjust income limits or resource limits for, any eligibility category or group under Section 43-13-115. Applicable in fiscal year 2010 only, no expenditure reductions or cost containments or increases in assessments recommended by the Executive Director of the Division of Medicaid shall be implemented before February 1, unless the division projects a shortfall so great that the entire Health Care Expendable Fund balance would be reduced to zero. Beginning in fiscal year 2010 and in fiscal years thereafter, when Medicaid expenditures are projected to exceed funds available for any quarter in the fiscal year, the division shall submit the expected shortfall information to the PEER Committee, which shall review the computations of the division and report its findings to the Legislative Budget Office within thirty (30) days of such notification by the division, and not later than January 7 in any year. If expenditure reductions or cost containments are implemented, the Governor may implement a maximum amount of state share expenditure reductions to providers, of which hospitals will be responsible for twenty-five percent (25%) of provider reductions as follows: in fiscal year 2010, the maximum amount shall be Twenty-four Million Dollars (\$24,000,000.00); in fiscal year 2011, the maximum amount shall be Thirty-two Million Dollars (\$32,000,000.00); and in fiscal year 2012 and thereafter, the maximum amount shall be Forty Million Dollars (\$40,000,000.00). However, instead of implementing cuts, the hospital share shall be in the form of an additional assessment not to exceed Ten Million Dollars (\$10,000,000.00) as provided in Section 43-13-145(4)(a)(ii). If Medicaid expenditures are projected to exceed the amount of funds appropriated to the division in any fiscal year in excess of the expenditure reductions to providers,

then funds shall be transferred by the State Fiscal Officer from the Health Care Trust Fund into the Health Care Expendable Fund and to the Governor's Office, Division of Medicaid, from the Health Care Expendable Fund, in the amount and at such time as requested by the Governor to reconcile the deficit. If the cost containment measures described above have been implemented and there are insufficient funds in the Health Care Trust Fund to reconcile any remaining deficit in any fiscal year, the Governor shall institute any other additional cost containment measures on any program or programs authorized under this article to the extent allowed under federal law. Hospitals shall be responsible for twenty-five percent (25%) of any additional imposed provider cuts. However, instead of implementing hospital expenditure reductions, the hospital reductions shall be in the form of an additional assessment not to exceed twenty-five percent (25%) of provider expenditure reductions as provided in Section 43-13-145(4)(a)(ii). It is the intent of the Legislature that the expenditures of the division during any fiscal year shall not exceed the amounts appropriated to the division for that fiscal year.

(G) Notwithstanding any other provision of this article, it shall be the duty of each nursing facility, intermediate care facility for the mentally retarded, psychiatric residential treatment facility, and nursing facility for the severely disabled that is participating in the Medicaid program to keep and maintain books, documents and other records as prescribed by the Division of Medicaid in substantiation of its cost reports for a period of three (3) years after the date of submission to the Division of Medicaid of an original cost report, or three (3) years after the date of submission to the Division of Medicaid of an amended cost report.

(H) (1) Notwithstanding any other provision of this article, the division shall not be authorized to implement any

managed care program, coordinated care program, coordinated care organization, health maintenance organization or similar program in which services are paid for on a capitated basis, beyond the level, scope or location of the program as it existed on October 1, 2008, until on or after January 1, 2010. Any managed care program or coordinated care program implemented by the division under this section shall be limited to a maximum of fifteen percent (15%) of all Medicaid beneficiaries, and any Medicaid beneficiary who is enrolled in the program shall have an annual window of at least thirty (30) days in length during which the beneficiary may disenroll from the program. In addition, any payments made to providers by a managed care organization, coordinated care organization, health maintenance organization or other similar organization under a managed care program or coordinated care program implemented by the division under this section shall be considered to be regular Medicaid payments for the purposes of calculating Medicare Upper Payment Limits (UPL) payments and Disproportionate Share Hospital (DSH) payments to hospitals. The division shall apply for any federal waiver or waivers necessary to implement a managed care program or coordinated care program that meets all of the requirements in this paragraph. If the division does not receive a federal waiver or waivers that authorizes it to implement a managed care program or coordinated care program that meets all of the requirements in this paragraph, then the division shall not be authorized to implement a managed care program or coordinated care program.

(2) All health maintenance organizations, coordinated care organizations or other organizations paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section shall reimburse all providers in those organizations at rates no lower than those provided under this section for beneficiaries who are not participating in those programs.

(3) No health maintenance organization, coordinated care organization or other organization paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section shall require its providers or beneficiaries to use any pharmacy that ships, mails or delivers prescription drugs or legend drugs or devices.

(4) After a managed care program or coordinated care program is implemented by the division under this section, the PEER Committee shall conduct a comprehensive performance evaluation of the managed care program or coordinated care program, which shall include, but not be limited to, a determination of any cost savings to the division, quality of care to the beneficiaries, and access to care by the beneficiaries. The PEER Committee shall provide regular reports on the status of the managed care program or coordinated care program to the members of the Senate Public Health and Welfare Committee and the House Medicaid Committee, and shall complete the performance evaluation and provide it to the members of those committees not later than December 15, 2011. As a condition of participation in a managed care program or coordinated care program implemented by the division under this section, a provider must agree to provide any information that the PEER Committee requests to conduct the performance evaluation of the program, and all those providers shall fully cooperate with the PEER Committee in any request to provide information to the committee.

(I) The division shall develop and publish reimbursement rates for each APR-DRG proposed by the division at least equal to the prevailing corresponding Medicare DRG rate or a closely related Medicare DRG rate, applying to each hospital, the applicable federal wage index being used by CMS for the hospital's geographic location, but the division shall not implement that rate schedule or APR-DRG methodology until after July 1, 2010.

The PEER Committee shall study the benefits and liabilities of implementing an APR-DRG reimbursement rate schedule, and report its findings to the members of the Senate Public Health and Welfare Committee and the House Medicaid Committee on or before December 15, 2009.

(J) There shall be no cuts in inpatient and outpatient hospital payments, or allowable days or volumes, as long as the hospital assessment provided in Section 43-13-145 is in effect.

(K) This section shall stand repealed on July 1, 2013.

SECTION 14. Section 41-7-191, Mississippi Code of 1972, is amended as follows:

41-7-191. (1) No person shall engage in any of the following activities without obtaining the required certificate of need:

(a) The construction, development or other establishment of a new health care facility, which establishment shall include the reopening of a health care facility that has ceased to operate for a period of sixty (60) months or more;

(b) The relocation of a health care facility or portion thereof, or major medical equipment, unless such relocation of a health care facility or portion thereof, or major medical equipment, which does not involve a capital expenditure by or on behalf of a health care facility, is within five thousand two hundred eighty (5,280) feet from the main entrance of the health care facility;

(c) Any change in the existing bed complement of any health care facility through the addition or conversion of any beds or the alteration, modernizing or refurbishing of any unit or department in which the beds may be located; however, if a health care facility has voluntarily delicensed some of its existing bed complement, it may later relicense some or all of its delicensed beds without the necessity of having to acquire a certificate of need. The State Department of Health shall maintain a record of

the delicensing health care facility and its voluntarily delicensed beds and continue counting those beds as part of the state's total bed count for health care planning purposes. If a health care facility that has voluntarily delicensed some of its beds later desires to relicense some or all of its voluntarily delicensed beds, it shall notify the State Department of Health of its intent to increase the number of its licensed beds. The State Department of Health shall survey the health care facility within thirty (30) days of that notice and, if appropriate, issue the health care facility a new license reflecting the new contingent of beds. However, in no event may a health care facility that has voluntarily delicensed some of its beds be reissued a license to operate beds in excess of its bed count before the voluntary delicensure of some of its beds without seeking certificate of need approval;

(d) Offering of the following health services if those services have not been provided on a regular basis by the proposed provider of such services within the period of twelve (12) months prior to the time such services would be offered:

- (i) Open-heart surgery services;
- (ii) Cardiac catheterization services;
- (iii) Comprehensive inpatient rehabilitation services;
- (iv) Licensed psychiatric services;
- (v) Licensed chemical dependency services;
- (vi) Radiation therapy services;
- (vii) Diagnostic imaging services of an invasive nature, i.e. invasive digital angiography;
- (viii) Nursing home care as defined in subparagraphs (iv), (vi) and (viii) of Section 41-7-173(h);
- (ix) Home health services;
- (x) Swing-bed services;
- (xi) Ambulatory surgical services;

- (xii) Magnetic resonance imaging services;
- (xiii) [Deleted]
- (xiv) Long-term care hospital services;
- (xv) Positron emission tomography (PET) services;

(e) The relocation of one or more health services from one physical facility or site to another physical facility or site, unless such relocation, which does not involve a capital expenditure by or on behalf of a health care facility, (i) is to a physical facility or site within five thousand two hundred eighty (5,280) feet from the main entrance of the health care facility where the health care service is located, or (ii) is the result of an order of a court of appropriate jurisdiction or a result of pending litigation in such court, or by order of the State Department of Health, or by order of any other agency or legal entity of the state, the federal government, or any political subdivision of either, whose order is also approved by the State Department of Health;

(f) The acquisition or otherwise control of any major medical equipment for the provision of medical services; provided, however, (i) the acquisition of any major medical equipment used only for research purposes, and (ii) the acquisition of major medical equipment to replace medical equipment for which a facility is already providing medical services and for which the State Department of Health has been notified before the date of such acquisition shall be exempt from this paragraph; an acquisition for less than fair market value must be reviewed, if the acquisition at fair market value would be subject to review;

(g) Changes of ownership of existing health care facilities in which a notice of intent is not filed with the State Department of Health at least thirty (30) days prior to the date such change of ownership occurs, or a change in services or bed capacity as prescribed in paragraph (c) or (d) of this subsection as a result of the change of ownership; an acquisition for less

than fair market value must be reviewed, if the acquisition at fair market value would be subject to review;

(h) The change of ownership of any health care facility defined in subparagraphs (iv), (vi) and (viii) of Section 41-7-173(h), in which a notice of intent as described in paragraph (g) has not been filed and if the Executive Director, Division of Medicaid, Office of the Governor, has not certified in writing that there will be no increase in allowable costs to Medicaid from revaluation of the assets or from increased interest and depreciation as a result of the proposed change of ownership;

(i) Any activity described in paragraphs (a) through (h) if undertaken by any person if that same activity would require certificate of need approval if undertaken by a health care facility;

(j) Any capital expenditure or deferred capital expenditure by or on behalf of a health care facility not covered by paragraphs (a) through (h);

(k) The contracting of a health care facility as defined in subparagraphs (i) through (viii) of Section 41-7-173(h) to establish a home office, subunit, or branch office in the space operated as a health care facility through a formal arrangement with an existing health care facility as defined in subparagraph (ix) of Section 41-7-173(h);

(l) The replacement or relocation of a health care facility designated as a critical access hospital shall be exempt from subsection (1) of this section so long as the critical access hospital complies with all applicable federal law and regulations regarding such replacement or relocation;

(m) Reopening a health care facility that has ceased to operate for a period of sixty (60) months or more, which reopening requires a certificate of need for the establishment of a new health care facility.

(2) The State Department of Health shall not grant approval for or issue a certificate of need to any person proposing the new construction of, addition to, or expansion of any health care facility defined in subparagraphs (iv) (skilled nursing facility) and (vi) (intermediate care facility) of Section 41-7-173(h) or the conversion of vacant hospital beds to provide skilled or intermediate nursing home care, except as hereinafter authorized:

(a) The department may issue a certificate of need to any person proposing the new construction of any health care facility defined in subparagraphs (iv) and (vi) of Section 41-7-173(h) as part of a life care retirement facility, in any county bordering on the Gulf of Mexico in which is located a National Aeronautics and Space Administration facility, not to exceed forty (40) beds. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the health care facility that were authorized under this paragraph (a).

(b) The department may issue certificates of need in Harrison County to provide skilled nursing home care for Alzheimer's disease patients and other patients, not to exceed one hundred fifty (150) beds. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the nursing facilities that were authorized under this paragraph (b).

(c) The department may issue a certificate of need for the addition to or expansion of any skilled nursing facility that is part of an existing continuing care retirement community located in Madison County, provided that the recipient of the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the

certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (c), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The total number of beds that may be authorized under the authority of this paragraph (c) shall not exceed sixty (60) beds.

(d) The State Department of Health may issue a certificate of need to any hospital located in DeSoto County for the new construction of a skilled nursing facility, not to exceed one hundred twenty (120) beds, in DeSoto County. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the nursing facility that were authorized under this paragraph (d).

(e) The State Department of Health may issue a certificate of need for the construction of a nursing facility or the conversion of beds to nursing facility beds at a personal care facility for the elderly in Lowndes County that is owned and operated by a Mississippi nonprofit corporation, not to exceed

sixty (60) beds. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the nursing facility that were authorized under this paragraph (e).

(f) The State Department of Health may issue a certificate of need for conversion of a county hospital facility in Itawamba County to a nursing facility, not to exceed sixty (60) beds, including any necessary construction, renovation or expansion. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the nursing facility that were authorized under this paragraph (f).

(g) The State Department of Health may issue a certificate of need for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in either Hinds, Madison or Rankin County, not to exceed sixty (60) beds. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the nursing facility that were authorized under this paragraph (g).

(h) The State Department of Health may issue a certificate of need for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in either Hancock, Harrison or Jackson County, not to exceed sixty (60) beds. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the facility that were authorized under this paragraph (h).

(i) The department may issue a certificate of need for the new construction of a skilled nursing facility in Leake County, provided that the recipient of the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et

seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (i), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The provision of Section 43-7-193(1) regarding substantial compliance of the projection of need as reported in the current State Health Plan is waived for the purposes of this paragraph. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (i) shall not exceed sixty (60) beds. If the skilled nursing facility authorized by the certificate of need issued under this paragraph is not constructed and fully operational within eighteen (18) months after July 1, 1994, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need, if it is still outstanding, and shall not issue a license for the skilled nursing

facility at any time after the expiration of the eighteen-month period.

(j) The department may issue certificates of need to allow any existing freestanding long-term care facility in Tishomingo County and Hancock County that on July 1, 1995, is licensed with fewer than sixty (60) beds. For the purposes of this paragraph (j), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. From and after July 1, 1999, there shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the beds in the long-term care facilities that were authorized under this paragraph (j).

(k) The department may issue a certificate of need for the construction of a nursing facility at a continuing care retirement community in Lowndes County. The total number of beds that may be authorized under the authority of this paragraph (k) shall not exceed sixty (60) beds. From and after July 1, 2001, the prohibition on the facility participating in the Medicaid program (Section 43-13-101 et seq.) that was a condition of issuance of the certificate of need under this paragraph (k) shall be revised as follows: The nursing facility may participate in the Medicaid program from and after July 1, 2001, if the owner of the facility on July 1, 2001, agrees in writing that no more than thirty (30) of the beds at the facility will be certified for participation in the Medicaid program, and that no claim will be submitted for Medicaid reimbursement for more than thirty (30) patients in the facility in any month or for any patient in the facility who is in a bed that is not Medicaid-certified. This written agreement by the owner of the facility shall be a condition of licensure of the facility, and the agreement shall be fully binding on any subsequent owner of the facility if the ownership of the facility is transferred at any time after July 1,

2001. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than thirty (30) of the beds in the facility for participation in the Medicaid program. If the facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than thirty (30) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the written agreement.

(1) Provided that funds are specifically appropriated therefor by the Legislature, the department may issue a certificate of need to a rehabilitation hospital in Hinds County for the construction of a sixty-bed long-term care nursing facility dedicated to the care and treatment of persons with severe disabilities including persons with spinal cord and closed-head injuries and ventilator dependent patients. The provisions of Section 41-7-193(1) regarding substantial compliance with projection of need as reported in the current State Health Plan are hereby waived for the purpose of this paragraph.

(m) The State Department of Health may issue a certificate of need to a county-owned hospital in the Second Judicial District of Panola County for the conversion of not more than seventy-two (72) hospital beds to nursing facility beds, provided that the recipient of the certificate of need agrees in writing that none of the beds at the nursing facility will be certified for participation in the Medicaid program (Section 43-13-101 et seq.), and that no claim will be submitted for Medicaid reimbursement in the nursing facility in any day or for any patient in the nursing facility. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of

the nursing facility if the ownership of the nursing facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify any of the beds in the nursing facility for participation in the Medicaid program. If the nursing facility violates the terms of the written agreement by admitting or keeping in the nursing facility on a regular or continuing basis any patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the nursing facility, at the time that the department determines, after a hearing complying with due process, that the nursing facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 2001, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 2001, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. Provided, however, that if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(n) The department may issue a certificate of need for the new construction, addition or conversion of skilled nursing facility beds in Madison County, provided that the recipient of

the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (n), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (n) shall not exceed sixty (60) beds. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 1998, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 1998, the State Department of Health, after a

hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. Provided, however, that if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(o) The department may issue a certificate of need for the new construction, addition or conversion of skilled nursing facility beds in Leake County, provided that the recipient of the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (o), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement

by the recipient of the certificate of need. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (o) shall not exceed sixty (60) beds. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 2001, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 2001, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. Provided, however, that if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(p) The department may issue a certificate of need for the construction of a municipally owned nursing facility within the Town of Belmont in Tishomingo County, not to exceed sixty (60) beds, provided that the recipient of the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a

certificate of need to any person under this paragraph (p), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The provision of Section 43-7-193(1) regarding substantial compliance of the projection of need as reported in the current State Health Plan is waived for the purposes of this paragraph. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 1998, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 1998, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. Provided, however, that if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(q) (i) Beginning on July 1, 1999, the State Department of Health shall issue certificates of need during each of the next four (4) fiscal years for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in each county in the state having a need for fifty (50) or more additional nursing facility beds, as shown in the fiscal year 1999 State Health Plan, in the manner provided in this paragraph (q). The total number of nursing facility beds that may be authorized by any certificate of need authorized under this paragraph (q) shall not exceed sixty (60) beds.

(ii) Subject to the provisions of subparagraph (v), during each of the next four (4) fiscal years, the department shall issue six (6) certificates of need for new nursing facility beds, as follows: During fiscal years 2000, 2001 and 2002, one (1) certificate of need shall be issued for new nursing facility beds in the county in each of the four (4) Long-Term Care Planning Districts designated in the fiscal year 1999 State Health Plan that has the highest need in the district for those beds; and two (2) certificates of need shall be issued for new nursing facility beds in the two (2) counties from the state at large that have the highest need in the state for those beds, when considering the need on a statewide basis and without regard to the Long-Term Care Planning Districts in which the counties are located. During fiscal year 2003, one (1) certificate of need shall be issued for new nursing facility beds in any county having a need for fifty (50) or more additional nursing facility beds, as shown in the fiscal year 1999 State Health Plan, that has not received a certificate of need under this paragraph (q) during the three (3) previous fiscal years. During fiscal year 2000, in addition to the six (6) certificates of need authorized in this subparagraph, the department also shall issue a certificate of need for new nursing facility beds in Amite County and a certificate of need for new nursing facility beds in Carroll County.

(iii) Subject to the provisions of subparagraph (v), the certificate of need issued under subparagraph (ii) for nursing facility beds in each Long-Term Care Planning District during each fiscal year shall first be available for nursing facility beds in the county in the district having the highest need for those beds, as shown in the fiscal year 1999 State Health Plan. If there are no applications for a certificate of need for nursing facility beds in the county having the highest need for those beds by the date specified by the department, then the certificate of need shall be available for nursing facility beds in other counties in the district in descending order of the need for those beds, from the county with the second highest need to the county with the lowest need, until an application is received for nursing facility beds in an eligible county in the district.

(iv) Subject to the provisions of subparagraph (v), the certificate of need issued under subparagraph (ii) for nursing facility beds in the two (2) counties from the state at large during each fiscal year shall first be available for nursing facility beds in the two (2) counties that have the highest need in the state for those beds, as shown in the fiscal year 1999 State Health Plan, when considering the need on a statewide basis and without regard to the Long-Term Care Planning Districts in which the counties are located. If there are no applications for a certificate of need for nursing facility beds in either of the two (2) counties having the highest need for those beds on a statewide basis by the date specified by the department, then the certificate of need shall be available for nursing facility beds in other counties from the state at large in descending order of the need for those beds on a statewide basis, from the county with the second highest need to the county with the lowest need, until an application is received for nursing facility beds in an eligible county from the state at large.

(v) If a certificate of need is authorized to be issued under this paragraph (q) for nursing facility beds in a county on the basis of the need in the Long-Term Care Planning District during any fiscal year of the four-year period, a certificate of need shall not also be available under this paragraph (q) for additional nursing facility beds in that county on the basis of the need in the state at large, and that county shall be excluded in determining which counties have the highest need for nursing facility beds in the state at large for that fiscal year. After a certificate of need has been issued under this paragraph (q) for nursing facility beds in a county during any fiscal year of the four-year period, a certificate of need shall not be available again under this paragraph (q) for additional nursing facility beds in that county during the four-year period, and that county shall be excluded in determining which counties have the highest need for nursing facility beds in succeeding fiscal years.

(vi) If more than one (1) application is made for a certificate of need for nursing home facility beds available under this paragraph (q), in Yalobusha, Newton or Tallahatchie County, and one (1) of the applicants is a county-owned hospital located in the county where the nursing facility beds are available, the department shall give priority to the county-owned hospital in granting the certificate of need if the following conditions are met:

1. The county-owned hospital fully meets all applicable criteria and standards required to obtain a certificate of need for the nursing facility beds; and

2. The county-owned hospital's qualifications for the certificate of need, as shown in its application and as determined by the department, are at least equal to the qualifications of the other applicants for the certificate of need.

(r) (i) Beginning on July 1, 1999, the State Department of Health shall issue certificates of need during each of the next two (2) fiscal years for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in each of the four (4) Long-Term Care Planning Districts designated in the fiscal year 1999 State Health Plan, to provide care exclusively to patients with Alzheimer's disease.

(ii) Not more than twenty (20) beds may be authorized by any certificate of need issued under this paragraph (r), and not more than a total of sixty (60) beds may be authorized in any Long-Term Care Planning District by all certificates of need issued under this paragraph (r). However, the total number of beds that may be authorized by all certificates of need issued under this paragraph (r) during any fiscal year shall not exceed one hundred twenty (120) beds, and the total number of beds that may be authorized in any Long-Term Care Planning District during any fiscal year shall not exceed forty (40) beds. Of the certificates of need that are issued for each Long-Term Care Planning District during the next two (2) fiscal years, at least one (1) shall be issued for beds in the northern part of the district, at least one (1) shall be issued for beds in the central part of the district, and at least one (1) shall be issued for beds in the southern part of the district.

(iii) The State Department of Health, in consultation with the Department of Mental Health and the Division of Medicaid, shall develop and prescribe the staffing levels, space requirements and other standards and requirements that must be met with regard to the nursing facility beds authorized under this paragraph (r) to provide care exclusively to patients with Alzheimer's disease.

(s) The State Department of Health may issue a certificate of need to a nonprofit skilled nursing facility using

the Green House model of skilled nursing care and located in Yazoo City, Yazoo County, Mississippi, for the construction, expansion or conversion of not more than nineteen (19) nursing facility beds. For purposes of this paragraph (s), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan and the provisions of Section 41-7-197 requiring a formal certificate of need hearing process are waived. There shall be no prohibition or restrictions on participation in the Medicaid program for the person receiving the certificate of need authorized under this paragraph (s).

(t) The State Department of Health shall issue certificates of need to the owner of a nursing facility in operation at the time of Hurricane Katrina in Hancock County that was not operational on December 31, 2005, because of damage sustained from Hurricane Katrina to authorize the following: (i) the construction of a new nursing facility in Harrison County; (ii) the relocation of forty-nine (49) nursing facility beds from the Hancock County facility to the new Harrison County facility; (iii) the establishment of not more than twenty (20) non-Medicaid nursing facility beds at the Hancock County facility; and (iv) the establishment of not more than twenty (20) non-Medicaid beds at the new Harrison County facility. The certificates of need that authorize the non-Medicaid nursing facility beds under subparagraphs (iii) and (iv) of this paragraph (t) shall be subject to the following conditions: The owner of the Hancock County facility and the new Harrison County facility must agree in writing that no more than fifty (50) of the beds at the Hancock County facility and no more than forty-nine (49) of the beds at the Harrison County facility will be certified for participation in the Medicaid program, and that no claim will be submitted for Medicaid reimbursement for more than fifty (50) patients in the Hancock County facility in any month, or for more than forty-nine

(49) patients in the Harrison County facility in any month, or for any patient in either facility who is in a bed that is not Medicaid-certified. This written agreement by the owner of the nursing facilities shall be a condition of the issuance of the certificates of need under this paragraph (t), and the agreement shall be fully binding on any later owner or owners of either facility if the ownership of either facility is transferred at any time after the certificates of need are issued. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than fifty (50) of the beds at the Hancock County facility or more than forty-nine (49) of the beds at the Harrison County facility for participation in the Medicaid program. If the Hancock County facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than fifty (50) patients who are participating in the Medicaid program, or if the Harrison County facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than forty-nine (49) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility that is in violation of the agreement, at the time that the department determines, after a hearing complying with due process, that the facility has violated the agreement.

(u) The State Department of Health shall issue a certificate of need to a nonprofit venture for the establishment, construction and operation of a skilled nursing facility of not more than sixty (60) beds to provide skilled nursing care for ventilator dependent or otherwise medically dependent pediatric patients who require medical and nursing care or rehabilitation services to be located in a county in which an academic medical center and a children's hospital are located, and for any construction and for the acquisition of equipment related to those

beds. The facility shall be authorized to keep such ventilator dependent or otherwise medically dependent pediatric patients beyond age twenty-one (21) in accordance with regulations of the State Board of Health. For purposes of this paragraph (u), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived, and the provisions of Section 41-7-197 requiring a formal certificate of need hearing process are waived. The beds authorized by this paragraph shall be counted as pediatric skilled nursing facility beds for health planning purposes under Section 41-7-171 et seq. There shall be no prohibition of or restrictions on participation in the Medicaid program for the person receiving the certificate of need authorized by this paragraph.

(3) The State Department of Health may grant approval for and issue certificates of need to any person proposing the new construction of, addition to, conversion of beds of or expansion of any health care facility defined in subparagraph (x) (psychiatric residential treatment facility) of Section 41-7-173(h). The total number of beds which may be authorized by such certificates of need shall not exceed three hundred thirty-four (334) beds for the entire state.

(a) Of the total number of beds authorized under this subsection, the department shall issue a certificate of need to a privately owned psychiatric residential treatment facility in Simpson County for the conversion of sixteen (16) intermediate care facility for the mentally retarded (ICF-MR) beds to psychiatric residential treatment facility beds, provided that facility agrees in writing that the facility shall give priority for the use of those sixteen (16) beds to Mississippi residents who are presently being treated in out-of-state facilities.

(b) Of the total number of beds authorized under this subsection, the department may issue a certificate or certificates

of need for the construction or expansion of psychiatric residential treatment facility beds or the conversion of other beds to psychiatric residential treatment facility beds in Warren County, not to exceed sixty (60) psychiatric residential treatment facility beds, provided that the facility agrees in writing that no more than thirty (30) of the beds at the psychiatric residential treatment facility will be certified for participation in the Medicaid program (Section 43-13-101 et seq.) for the use of any patients other than those who are participating only in the Medicaid program of another state, and that no claim will be submitted to the Division of Medicaid for Medicaid reimbursement for more than thirty (30) patients in the psychiatric residential treatment facility in any day or for any patient in the psychiatric residential treatment facility who is in a bed that is not Medicaid-certified. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the psychiatric residential treatment facility if the ownership of the facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than thirty (30) of the beds in the psychiatric residential treatment facility for participation in the Medicaid program for the use of any patients other than those who are participating only in the Medicaid program of another state. If the psychiatric residential treatment facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than thirty (30) patients who are participating in the Mississippi Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the condition

upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.

The State Department of Health, on or before July 1, 2002, shall transfer the certificate of need authorized under the authority of this paragraph (b), or reissue the certificate of need if it has expired, to River Region Health System.

(c) Of the total number of beds authorized under this subsection, the department shall issue a certificate of need to a hospital currently operating Medicaid-certified acute psychiatric beds for adolescents in DeSoto County, for the establishment of a forty-bed psychiatric residential treatment facility in DeSoto County, provided that the hospital agrees in writing (i) that the hospital shall give priority for the use of those forty (40) beds to Mississippi residents who are presently being treated in out-of-state facilities, and (ii) that no more than fifteen (15) of the beds at the psychiatric residential treatment facility will be certified for participation in the Medicaid program (Section 43-13-101 et seq.), and that no claim will be submitted for Medicaid reimbursement for more than fifteen (15) patients in the psychiatric residential treatment facility in any day or for any patient in the psychiatric residential treatment facility who is in a bed that is not Medicaid-certified. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the psychiatric residential treatment facility if the ownership of the facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than fifteen (15) of the beds in the psychiatric residential treatment facility for participation in the Medicaid program. If the psychiatric residential treatment facility violates the terms of the written agreement by admitting

or keeping in the facility on a regular or continuing basis more than fifteen (15) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.

(d) Of the total number of beds authorized under this subsection, the department may issue a certificate or certificates of need for the construction or expansion of psychiatric residential treatment facility beds or the conversion of other beds to psychiatric treatment facility beds, not to exceed thirty (30) psychiatric residential treatment facility beds, in either Alcorn, Tishomingo, Prentiss, Lee, Itawamba, Monroe, Chickasaw, Pontotoc, Calhoun, Lafayette, Union, Benton or Tippah County.

(e) Of the total number of beds authorized under this subsection (3) the department shall issue a certificate of need to a privately owned, nonprofit psychiatric residential treatment facility in Hinds County for an eight-bed expansion of the facility, provided that the facility agrees in writing that the facility shall give priority for the use of those eight (8) beds to Mississippi residents who are presently being treated in out-of-state facilities.

(f) The department shall issue a certificate of need to a one-hundred-thirty-four-bed specialty hospital located on twenty-nine and forty-four one-hundredths (29.44) commercial acres at 5900 Highway 39 North in Meridian (Lauderdale County), Mississippi, for the addition, construction or expansion of child/adolescent psychiatric residential treatment facility beds in Lauderdale County. As a condition of issuance of the certificate of need under this paragraph, the facility shall give priority in admissions to the child/adolescent psychiatric

residential treatment facility beds authorized under this paragraph to patients who otherwise would require out-of-state placement. The Division of Medicaid, in conjunction with the Department of Human Services, shall furnish the facility a list of all out-of-state patients on a quarterly basis. Furthermore, notice shall also be provided to the parent, custodial parent or guardian of each out-of-state patient notifying them of the priority status granted by this paragraph. For purposes of this paragraph, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of child/adolescent psychiatric residential treatment facility beds that may be authorized under the authority of this paragraph shall be sixty (60) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this paragraph or for the beds converted pursuant to the authority of that certificate of need.

(4) (a) From and after July 1, 1993, the department shall not issue a certificate of need to any person for the new construction of any hospital, psychiatric hospital or chemical dependency hospital that will contain any child/adolescent psychiatric or child/adolescent chemical dependency beds, or for the conversion of any other health care facility to a hospital, psychiatric hospital or chemical dependency hospital that will contain any child/adolescent psychiatric or child/adolescent chemical dependency beds, or for the addition of any child/adolescent psychiatric or child/adolescent chemical dependency beds in any hospital, psychiatric hospital or chemical dependency hospital, or for the conversion of any beds of another category in any hospital, psychiatric hospital or chemical dependency hospital to child/adolescent psychiatric or

child/adolescent chemical dependency beds, except as hereinafter authorized:

(i) The department may issue certificates of need to any person for any purpose described in this subsection, provided that the hospital, psychiatric hospital or chemical dependency hospital does not participate in the Medicaid program (Section 43-13-101 et seq.) at the time of the application for the certificate of need and the owner of the hospital, psychiatric hospital or chemical dependency hospital agrees in writing that the hospital, psychiatric hospital or chemical dependency hospital will not at any time participate in the Medicaid program or admit or keep any patients who are participating in the Medicaid program in the hospital, psychiatric hospital or chemical dependency hospital. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the hospital, psychiatric hospital or chemical dependency hospital, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the hospital, psychiatric hospital or chemical dependency hospital will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subparagraph (i), and if such hospital, psychiatric hospital or chemical dependency hospital at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the hospital, psychiatric hospital or chemical dependency hospital who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the hospital, psychiatric hospital or chemical dependency hospital, at the time that the department determines, after a hearing complying with due process, that the hospital, psychiatric hospital or chemical dependency hospital has

failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subparagraph (i) and in the written agreement by the recipient of the certificate of need.

(ii) The department may issue a certificate of need for the conversion of existing beds in a county hospital in Choctaw County from acute care beds to child/adolescent chemical dependency beds. For purposes of this subparagraph (ii), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the hospital receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

(iii) The department may issue a certificate or certificates of need for the construction or expansion of child/adolescent psychiatric beds or the conversion of other beds to child/adolescent psychiatric beds in Warren County. For purposes of this subparagraph (iii), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

If by January 1, 2002, there has been no significant commencement of construction of the beds authorized under this

subparagraph (iii), or no significant action taken to convert existing beds to the beds authorized under this subparagraph, then the certificate of need that was previously issued under this subparagraph shall expire. If the previously issued certificate of need expires, the department may accept applications for issuance of another certificate of need for the beds authorized under this subparagraph, and may issue a certificate of need to authorize the construction, expansion or conversion of the beds authorized under this subparagraph.

(iv) The department shall issue a certificate of need to the Region 7 Mental Health/Retardation Commission for the construction or expansion of child/adolescent psychiatric beds or the conversion of other beds to child/adolescent psychiatric beds in any of the counties served by the commission. For purposes of this subparagraph (iv), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

(v) The department may issue a certificate of need to any county hospital located in Leflore County for the construction or expansion of adult psychiatric beds or the conversion of other beds to adult psychiatric beds, not to exceed twenty (20) beds, provided that the recipient of the certificate of need agrees in writing that the adult psychiatric beds will not at any time be certified for participation in the Medicaid program and that the hospital will not admit or keep any patients who are participating in the Medicaid program in any of such adult

psychiatric beds. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the hospital if the ownership of the hospital is transferred at any time after the issuance of the certificate of need. Agreement that the adult psychiatric beds will not be certified for participation in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subparagraph (v), and if such hospital at any time after the issuance of the certificate of need, regardless of the ownership of the hospital, has any of such adult psychiatric beds certified for participation in the Medicaid program or admits or keeps any Medicaid patients in such adult psychiatric beds, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the hospital at the time that the department determines, after a hearing complying with due process, that the hospital has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subparagraph and in the written agreement by the recipient of the certificate of need.

(vi) The department may issue a certificate or certificates of need for the expansion of child psychiatric beds or the conversion of other beds to child psychiatric beds at the University of Mississippi Medical Center. For purposes of this subparagraph (vi), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed fifteen (15) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the hospital receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

(b) From and after July 1, 1990, no hospital, psychiatric hospital or chemical dependency hospital shall be authorized to add any child/adolescent psychiatric or child/adolescent chemical dependency beds or convert any beds of another category to child/adolescent psychiatric or child/adolescent chemical dependency beds without a certificate of need under the authority of subsection (1)(c) of this section.

(5) The department may issue a certificate of need to a county hospital in Winston County for the conversion of fifteen (15) acute care beds to geriatric psychiatric care beds.

(6) The State Department of Health shall issue a certificate of need to a Mississippi corporation qualified to manage a long-term care hospital as defined in Section 41-7-173(h)(xii) in Harrison County, not to exceed eighty (80) beds, including any necessary renovation or construction required for licensure and certification, provided that the recipient of the certificate of need agrees in writing that the long-term care hospital will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the long-term care hospital who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the long-term care hospital, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the long-term care hospital will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subsection (6), and if such long-term care hospital at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or

revoke the license of the long-term care hospital, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subsection and in the written agreement by the recipient of the certificate of need. For purposes of this subsection, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are hereby waived.

(7) The State Department of Health may issue a certificate of need to any hospital in the state to utilize a portion of its beds for the "swing-bed" concept. Any such hospital must be in conformance with the federal regulations regarding such swing-bed concept at the time it submits its application for a certificate of need to the State Department of Health, except that such hospital may have more licensed beds or a higher average daily census (ADC) than the maximum number specified in federal regulations for participation in the swing-bed program. Any hospital meeting all federal requirements for participation in the swing-bed program which receives such certificate of need shall render services provided under the swing-bed concept to any patient eligible for Medicare (Title XVIII of the Social Security Act) who is certified by a physician to be in need of such services, and no such hospital shall permit any patient who is eligible for both Medicaid and Medicare or eligible only for Medicaid to stay in the swing beds of the hospital for more than thirty (30) days per admission unless the hospital receives prior approval for such patient from the Division of Medicaid, Office of the Governor. Any hospital having more licensed beds or a higher average daily census (ADC) than the maximum number specified in federal regulations for participation in the swing-bed program which receives such certificate of need shall develop a procedure to insure that before a patient is allowed to stay in the swing

beds of the hospital, there are no vacant nursing home beds available for that patient located within a fifty-mile radius of the hospital. When any such hospital has a patient staying in the swing beds of the hospital and the hospital receives notice from a nursing home located within such radius that there is a vacant bed available for that patient, the hospital shall transfer the patient to the nursing home within a reasonable time after receipt of the notice. Any hospital which is subject to the requirements of the two (2) preceding sentences of this subsection may be suspended from participation in the swing-bed program for a reasonable period of time by the State Department of Health if the department, after a hearing complying with due process, determines that the hospital has failed to comply with any of those requirements.

(8) The Department of Health shall not grant approval for or issue a certificate of need to any person proposing the new construction of, addition to or expansion of a health care facility as defined in subparagraph (viii) of Section 41-7-173(h), except as hereinafter provided: The department may issue a certificate of need to a nonprofit corporation located in Madison County, Mississippi, for the construction, expansion or conversion of not more than twenty (20) beds in a community living program for developmentally disabled adults in a facility as defined in subparagraph (viii) of Section 41-7-173(h). For purposes of this subsection (8), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan and the provisions of Section 41-7-197 requiring a formal certificate of need hearing process are waived. There shall be no prohibition or restrictions on participation in the Medicaid program for the person receiving the certificate of need authorized under this subsection (8).

(9) The Department of Health shall not grant approval for or issue a certificate of need to any person proposing the

establishment of, or expansion of the currently approved territory of, or the contracting to establish a home office, subunit or branch office within the space operated as a health care facility as defined in Section 41-7-173(h)(i) through (viii) by a health care facility as defined in subparagraph (ix) of Section 41-7-173(h).

(10) Health care facilities owned and/or operated by the state or its agencies are exempt from the restraints in this section against issuance of a certificate of need if such addition or expansion consists of repairing or renovation necessary to comply with the state licensure law. This exception shall not apply to the new construction of any building by such state facility. This exception shall not apply to any health care facilities owned and/or operated by counties, municipalities, districts, unincorporated areas, other defined persons, or any combination thereof.

(11) The new construction, renovation or expansion of or addition to any health care facility defined in subparagraph (ii) (psychiatric hospital), subparagraph (iv) (skilled nursing facility), subparagraph (vi) (intermediate care facility), subparagraph (viii) (intermediate care facility for the mentally retarded) and subparagraph (x) (psychiatric residential treatment facility) of Section 41-7-173(h) which is owned by the State of Mississippi and under the direction and control of the State Department of Mental Health, and the addition of new beds or the conversion of beds from one category to another in any such defined health care facility which is owned by the State of Mississippi and under the direction and control of the State Department of Mental Health, shall not require the issuance of a certificate of need under Section 41-7-171 et seq., notwithstanding any provision in Section 41-7-171 et seq. to the contrary.

(12) The new construction, renovation or expansion of or addition to any veterans homes or domiciliaries for eligible veterans of the State of Mississippi as authorized under Section 35-1-19 shall not require the issuance of a certificate of need, notwithstanding any provision in Section 41-7-171 et seq. to the contrary.

(13) [Repealed]

(14) The State Department of Health shall issue a certificate of need to any hospital which is currently licensed for two hundred fifty (250) or more acute care beds and is located in any general hospital service area not having a comprehensive cancer center, for the establishment and equipping of such a center which provides facilities and services for outpatient radiation oncology therapy, outpatient medical oncology therapy, and appropriate support services including the provision of radiation therapy services. The provisions of Section 41-7-193(1) regarding substantial compliance with the projection of need as reported in the current State Health Plan are waived for the purpose of this subsection.

(15) The State Department of Health may authorize the transfer of hospital beds, not to exceed sixty (60) beds, from the North Panola Community Hospital to the South Panola Community Hospital. The authorization for the transfer of those beds shall be exempt from the certificate of need review process.

(16) The State Department of Health shall issue any certificates of need necessary for Mississippi State University and a public or private health care provider to jointly acquire and operate a linear accelerator and a magnetic resonance imaging unit. Those certificates of need shall cover all capital expenditures related to the project between Mississippi State University and the health care provider, including, but not limited to, the acquisition of the linear accelerator, the magnetic resonance imaging unit and other radiological modalities;

the offering of linear accelerator and magnetic resonance imaging services; and the cost of construction of facilities in which to locate these services. The linear accelerator and the magnetic resonance imaging unit shall be (a) located in the City of Starkville, Oktibbeha County, Mississippi; (b) operated jointly by Mississippi State University and the public or private health care provider selected by Mississippi State University through a request for proposals (RFP) process in which Mississippi State University selects, and the Board of Trustees of State Institutions of Higher Learning approves, the health care provider that makes the best overall proposal; (c) available to Mississippi State University for research purposes two-thirds (2/3) of the time that the linear accelerator and magnetic resonance imaging unit are operational; and (d) available to the public or private health care provider selected by Mississippi State University and approved by the Board of Trustees of State Institutions of Higher Learning one-third (1/3) of the time for clinical, diagnostic and treatment purposes. For purposes of this subsection, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived.

(17) The State Department of Health shall issue a certificate of need for the construction of an acute care hospital in Kemper County, not to exceed twenty-five (25) beds, which shall be named the "John C. Stennis Memorial Hospital." In issuing the certificate of need under this subsection, the department shall give priority to a hospital located in Lauderdale County that has two hundred fifteen (215) beds. For purposes of this subsection, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan and the provisions of Section 41-7-197 requiring a formal certificate of need hearing process are waived. There shall be no prohibition or restrictions on participation in the

Medicaid program (Section 43-13-101 et seq.) for the person or entity receiving the certificate of need authorized under this subsection or for the beds constructed under the authority of that certificate of need.

(18) Nothing in this section or in any other provision of Section 41-7-171 et seq. shall prevent any nursing facility from designating an appropriate number of existing beds in the facility as beds for providing care exclusively to patients with Alzheimer's disease.

SECTION 15. This act shall take effect and be in force from and after its passage.
