BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

**SECTION 1.** Section 41-19-33, Mississippi Code of 1972, is amended as follows:

41-19-33. (1) Each region so designated or established under Section 41-19-31 shall establish a regional commission to be composed of members appointed by the boards of supervisors of the various counties in the region. It shall be the duty of such regional commission to administer mental health/intellectual disability programs certified and required by the State Board of Mental Health and as specified in Section 41-4-1(2). In addition, once designated and established as provided hereinabove, a regional commission shall have the following authority and shall pursue and promote the following general purposes:

(a) To establish, own, lease, acquire, construct, build, operate and maintain mental illness, mental health, intellectual disability, alcoholism and general rehabilitative facilities and services designed to serve the needs of the people of the region so designated; provided that the services supplied by the regional commissions shall include those services determined by the Department of Mental Health to be necessary and may include, in addition to the above, services for persons with developmental and learning disabilities; for persons suffering from narcotic addiction and problems of drug abuse and drug dependence; and for the aging as designated and certified by the Department of Mental Health. Such regional mental health and intellectual disability commissions and other community service providers shall, on or before July 1 of each year, submit an annual operational plan to the Department of Mental Health for approval or disapproval based on the minimum standards and minimum required services established by the department for certification and itemize the services as specified in Section 41-4-1(2). As part of the annual operation plan required by Section 41-4-7(h) submitted by any regional community mental health center or by any other reasonable certification deemed acceptable by the department, the community mental health center shall state those services specified in Section 41-4-1(2) that it will provide and also those services that it will not provide. If the department finds deficiencies in the plan of any regional commission or

community service provider based on the minimum standards and minimum required services established for certification, the department shall give the regional commission or community service provider a six-month probationary period to bring its standards and services up to the established minimum standards and minimum required services. After the six-month probationary period, if the department determines that the regional commission or community service provider still does not meet the minimum standards and minimum required services established for certification, the department may remove the certification of the commission or provider and from and after July 1, 2011, the commission or provider shall be ineligible for state funds from Medicaid reimbursement or other funding sources for those services. After the six-month probationary period, the Department of Mental Health may identify an appropriate community service provider to provide any core services in that county that are not provided by a community mental health center. However, the department shall not offer reimbursement or other accommodations to a community service provider of core services that were not offered to the decertified community mental health center for the same or similar services.

(b) To provide facilities and services for the prevention of mental illness, mental disorders, developmental and learning disabilities, alcoholism, narcotic addiction, drug abuse, drug dependence and other related handicaps or problems (including

the problems of the aging) among the people of the region so designated, and for the rehabilitation of persons suffering from such illnesses, disorders, handicaps or problems as designated and certified by the Department of Mental Health.

(d) To enter into contracts and to make such other arrangements as may be necessary, from time to time, with the United States government, the government of the State of Mississippi and such other agencies or governmental bodies as may be approved by and acceptable to the regional commission for the purpose of establishing, funding, constructing, operating and maintaining facilities and services for the care, treatment and rehabilitation of persons suffering from mental illness, an intellectual disability, alcoholism, developmental and learning disabilities, narcotic addiction, drug abuse, drug dependence and other illnesses, disorders, handicaps and problems (including the

problems of the aging) as designated and certified by the Department of Mental Health.
