<City>, <State> <ZIP>

Dear <Sal> <Lname>:

Thanks to your support of Governor Ronnie Musgrove's Computers in Classroom Initiative, we are on track to be the first state in the nation to have an Internet-accessible computer in every public classroom. Not only are you helping place computers in the classroom, but your financial support is being used to train teachers to amplify their subjects with information from the World Wide Web.

Our partnership may be the largest of its kind with training and equipment valued at more than \$28 million. Together, we have the opportunity to make exponential leaps in people's minds about Mississippi. Imagine a classroom where any child will have the world's resources at his or her hands. Imagine a child who will learn about business, society, languages, cultures, and current events and how they interact today not five years ago from a textbook. This is what we are doing, today, in Mississippi.

I hope that you will continue to stand with the Governor and me by continuing your support of the Computers in Classroom Initiative. If you would like more information on the project or to learn how you can help, please contact the Mississippi Public Education Forum at (601) 969-0022.

Sincerely yours,

Carolyn Shanks  
President and CEO
