Scott Stemple left a message for me on Friday to contact him regarding the Classroom Technology Taskforce and an upcoming expo at the Trade Mart (August 30 and 31). I called him today and he just returned my call. This will be his company's sixth year to organize the Computer and Technology Expo. They have recently started partnering with governmental entities to forward/advertise technological initiatives. He saw the Classroom Technology initiative on our web page. He is interested in providing the Governor and the taskforce a forum at the expo for the initiative. **He mentioned possibly having the Governor give a keynote address at one of the expo's ceremonies to discuss his initiative.** Scott also works with Tech Corp, a group of technology volunteers that go in and help run wires, etc. Scott said that Mississippi does not have a chapter, but that Tech Corp wants to assist in the expo.

I told Scott that I would have you call him. His number is 1-800-422-0251, ext. 3021. He is in Portland, OR, but is at work @ 6:00 in order to correspond w/ the southeastern states (his region). You may also reach him via email at [sstemple@techshows.com](mailto:sstemple@techshows.com).
