Subject: Computers in every classroom  
Message:

Hello Gov. Musgrove...

Congratulations on your new "post"! May it be a great post--> I hope you can make such progress that folks out there in the "rest of the world" will no longer perceive us as an "OUTPOST"!

I've heard that you want to be an "accessible" governor, so I am hoping this means I might be able to get an appointment with you to talk about one of your projects... your "computers in every classroom & on the net" plan. This is an area,( half of which is dearest to my heart), but I'd love to be able to talk to you about both halves. I've been a teacher since I was 17 yrs old (in 1961) and have a computer business now in Yazoo City...still teaching but in a different capacity. In this new capacity, I have developed some methods for teaching that WORK- and seem to work better than most. And I want Mississippi in on "being better". May I come talk with you?

I have put in a call to Donna Simmons to see about an appointment so this might be sufficient.

Thanks for any attention you might give this matter.
