

Dear _____:

I was glad to have the opportunity to attend the Mississippi Economic Council's Annual Meeting, and to be given the time to talk with our business leaders from across the state about the vision we have for economic development in Mississippi.

As I mentioned at the meeting, members of the Mississippi Partnership for Economic Development are working diligently to design a plan that will provide us with the tools we will need to advance our state economically. We know that it is critical to have a plan that will take us to new levels of prosperity and create for our families an improved quality of life.

My administration is committed to working with the membership of the MEC to attract and grow business and industry in our state, and it important that you know we will indeed take all of us working together to make Mississippi a better place to live, work and raise a family.

I look forward to our promising future together in Mississippi.
