

June 12, 2000

Dear Mississippi Families:

All Mississippians know the importance of improving education for the future of our state. In order for Mississippi to be competitive with other states in attracting business and industry, we must have people with a quality education.

The workforce of tomorrow is filled by the children of today. Those children deserve the best education we can provide, and with raising teacher pay to the Southeastern average and placing an Internet-accessible computer in every classroom by the end of the year 2002 we have taken major steps to move education forward in Mississippi

The MPACT Program is an excellent way for Mississippi families to prepare for the college education of their children and grandchildren, and I am proud to endorse this college savings plan. In fact, our family has participated in the program since its inception by enrolling our two children.

I hope you will consider MPACT as a safe and secure way to save for the education of your children.

Very truly yours,

RONNIE MUSGROVE
