

MEMORANDUM

October 12, 2001

TO: Governor
FROM: John
CC: Renick
RE: NBC News story

Amy Bissell at MEMA has informed me that NBC News out of New York is interested in coming onsite and doing a story about a state or city's preparedness efforts. It would be a positive piece focused on emergency management. I would like to work with Amy to see what kind of time-line they're on for this, and what we can put together. I know Robert Latham is supposed to meet with some fire department personnel next week. With your OK, I'd like to see if we can sell something to them and get them here for some coverage.
