

# **MEMORANDUM**

September 27, 2001

TO: Governor

FROM: John

RE: Media calls

We have had several calls this morning regarding Bush's call for governors to bring in the National Guard for airport security. I would suggest that we simply issue a written statement and blast fax it around the state to all media. Suggested statement:

Also, I received a call from the producer of the "Big D and Bubba" morning radio show. This show is based out of Baton Rouge but plays along the Mississippi Gulf Coast, primarily in Biloxi, from 5:30-8:00 a.m. They would like to get you on tape with Big D and Bubba, urging listeners to continue to spend money to help the economy. This would be taped, not live. They would like to do this either tomorrow morning, Monday morning or Tuesday morning. If you want to do this, I have the call in number.
