

**MEMORANDUM**

October 24, 2001

TO: Governor

FROM: John

RE: Milwaukee Electric Tools announcement

Milwaukee Electric Tools manufactures power tools and accessories. Based in Brookfield, Wisconsin, they currently have three plants in Mississippi (Jackson, Olive Branch and Kosciusko). They are relocating a manufacturing facility to Greenwood.

This move was made possible through the Growth and Prosperity (GAP) program of the Advantage Mississippi initiative. Training programs were also used at area community colleges.

I do not have an agenda as of yet for this event, but should have one asap in the morning. The President and CEO of Milwaukee is Daniel Pery. He is expected to be at the event.
