- c. Mississippi is leading the nation in some aspects of healthcare, but we are facing one health care crisis that is plaguing our state.
- d. Primary care providers are becoming more and more scarce, particularly in some rural areas of Mississippi.
- e. People in every county – in every area - of our state deserve to have access to life-saving, life-enhancing services.
- f. We have made progress in bringing better health care access opportunities to people in all areas of our state.
- g. We have enacted a medical scholarship program that helps us attract physicians to our state's areas of critical needs.
- h. We have enrolled more of our children in the Children's Health Insurance Program.
- i. And we now have licensed Physicians Assistants, whose presence in our state offers increased access to medical care.

- j. I can promise you that Mississippians have our commitment to find even more solutions that work to enhance their lives.
- k. That is why today's announcement is so important and exciting.
- l. The Enterprise Corporation of the Delta and Mississippi Access for Rural Care are making great strides to solutions that meet our people's health care needs.
- m. With the establishment of the Rural Health Care Loan Fund, community health centers, rural clinics, hospitals, physicians, pharmacists and dentists in medically underserved areas of Mississippi can get financing to enhance and increase their practices to better serve the people in the rural areas of our state.
- n. That means more Mississippians with better access to good health care options.
- o. That means more Mississippians getting the medical attention they need.
- p. And that means healthier Mississippians with better qualities of life.

- r. Sound, solid healthcare is vital to a good quality of life for the people of Mississippi.
- s. This program is helping us develop stronger and better Mississippians, which creates a stronger and better Mississippi.
