Kristen Hill

Dear Shelby:

Thank you for your letter requesting information on Mississippi. I am enclosing several copies of the Office of the Governor's educational booklet for your class. I hope these booklets will prove useful in your studies. The booklet contains information relative to our state's history, culture and government.

Regarding your questions, I have two children. My son Jordan is 17 and my daughter Carmen Rae is 14. I enjoy hunting. Mississippi is a beautiful state with a rich culture and a promising future. Mississippi will be the first state in America to have an Internet-accessible computer in every classroom of every school by the end of next month.

Thank you again for your letter. Good luck this school year!

Very truly yours,

RONNIE MUSGROVE
