Subject: Sue Jones: USA's Engineering School

Mrs. Jones left voicemail yesterday inquiring as to if we knew if the University of South Alabama's engineering school was accredited by ABET (Accreditation Board for Engineering and Technology). I checked ABET's web page for the list of accredited schools and found that South Alabama is accredited. I called Mrs. Jones and gave her this information, informing her that the web page reflected South Alabama was up for review during the 1999-2000 school year, but that the web page did not reflect that they hadn't passed review and listed them as accredited.

This case is closed.
