Redwood School
P.O. Box 98
Redwood, Mississippi 39156
Attn: Administrators, Students, Faculty and Staff of Redwood School

Thank you for the copy of the TIME magazine article which featured your school. Education is a very important issue with the Governor and The First Lady. It is encouraging to see schools and administrators such as yours who are benefiting from all that they both do in the plight for excellence in education in the state of Mississippi. The fact that your institution has made use of the funding that you have received is great. However, it is most impressionable to learn that you still value the core essentials of better education that existed long before computers and new-age facilities, those basic yet fundamental assets that are credited with producing great thinkers and philosophers long before the age of technological advancements. Continued success is wished upon your school in that you may serve as an example to other institutions that are striving to achieve academic success.

Again, many thanks for taking time to forward this information to the Governor.

Very truly yours,

Kelly L. Riley
Policy Liaison
