Subject: "Finders Fee" Payment

Congratulations! Enclosed is your school's "finders fee" payment for children approved for the Mississippi Health Benefits program as a result of applications submitted by your school. You may determine how these funds will best serve your school. I appreciate your assistance in ensuring that all children in Mississippi have adequate health coverage.

Healthy children are better prepared to learn and can contribute more to your school and to our communities. I encourage you to continue your efforts in this initiative by disseminating Mississippi Health Benefit Applications to students in your school. Make sure that your school's ID code is clearly marked on all applications that you disseminate.

Thank you again for your assistance in improving the quality of life for children and families in Mississippi.
