Dear <sal>:

Thank you for participating in Governor Musgrove's "Capital for a Day" in Bay St. Louis, Mississippi. As the Governor's Policy Director, I am working closely with the Department of Health and Department of Environmental Quality to review your concerns with the Hancock County Water and Sewer Authority.

Governor Musgrove recognized many of the issues with the water and wastewater infrastructure in Mississippi. In March 2001, he created the Governor's Water and Sewer Task Force to study the infrastructure issues facing rural Mississippi. You can access this report on the Governor's website at [www.governor.state.ms.us](http://www.governor.state.ms.us).

Attached you will find a letter from DEQ requesting additional information from the Hancock Water and Sewer Authority regarding sewage overflows. As this review proceeds, I will continue to update you. Should you need to contact me, please call me at 601-359-2971.

Very truly yours,

Michael Boyd  
Policy and Planning Director
