

The following is the self-reported technology readiness of the Mississippi schools chosen to participate in the Following the Leaders launch, Fall 2002. Schools with a medium or low ratings are ones that we collectively, you at the state level and the FTL team, will need to keep a close eye on to ensure they have the necessary network speed, internet connectivity, and hardware to properly run Following the Leaders software. Ratings are based on data provided by schools in the FTL school application:
