(Jackson, MS) – Governor Ronnie Musgrove released the following statement today:

“Together, we have had tremendous successes during this legislative session, from putting our children first with the education funding bill, to the creation of jobs with the rural economic impact authority legislation.

“It is important that the legislature finish the people’s business on time. I ask that the legislature pass a new budget bill that is similar to the bill that has passed both Houses, a bill which does not spend all of our current savings or earmark our future savings. We are willing to work with the legislature to complete the budget work prior to going home.”
