**TO ALL NEWS DIRECTORS AND EDITORS:**

Governor Ronnie Musgrove will attend the National Governors Association Annual Meeting on August 15-17, 2003. This year's meeting will be held in Indianapolis, Indiana.

As a member of the NGA Executive Committee, Governor Musgrove plays a key leadership role among his fellow governors as they work together to craft policies regarding issues such as education, job creation, health care, and the fiscal crisis facing the states due to the national recession.

Throughout the meeting, the NGA Office of Communications will be making television and radio interviews with the governors available to you. You will be contacted by NGA when interviews with Governor Musgrove are available. For television, satellite feed information will be provided. For radio, you will be contacted when the broadcast quality interviews are made available on the NGA website.

This is an excellent opportunity to gather footage and information about the NGA and Governor Musgrove's active participation with his colleagues.
