National Children & Family Awareness Of America*USA

<T.A.C.T.I.C.S.>

"Teaching America's Children
To Increase Communication Skills..."

~*~ 12 Month Value Guide ~*~

.....JANUARY.....
"Value Of Life Awareness Month"

Teaching children the meaning of life... The purpose of life...
And the importance of valuing their own life & the lives and
rights of others to life. To become aware of all new beginnings
as the renewal of life... new year... new hope... new joy...
new visions of life... liberty... & the pursuit of happiness.
(*Celebrated Annually Every January...Celebration Of Life Month)

Many have asked... "What can we do to help?"
How do we help America's children learn more constructive
behavior patterns... decisions making capabilities... stress
management... while increasing their ability to learn
communication skills?.....

Children are born to be molded, loved and supported
until they reach the age of accountability. Slowly they
are being robbed of the moral right to do good instead of
evil. Life is full of choices and we would like to see
America's Children make the right choices for life...
liberty... and the pursuit of happiness. This comes
with being an American...

Our vision as a non-profit charitable organization is to
establish and teach these value guidelines for 12 months
of easy patterns of life to follow and live with dignity & honor.
Each month focuses on a moral... physical... spiritual...
responsible... and family oriented goal.

Together we can all help America's Children learn to
increase communication skills and find true happiness....
