Message: Dear Governor,

I am a small business owner and never corresponded with any of my elected officials before. I do vote and am active in my community and stay abreast of most political issues. The present budget crisis is very disturbing to me and you seem to be at the center of the debate and are touring the state in defense of the budget. I am normally not at this adamant about a single issue but I believe that there many other projects and programs that can be trimmed before we get to the education budget. It seems absurd to believe that our economic projections were that far out of line. I agree that Nov. and Dec. of 2001 was a sub par month on every economic front but the year for the coastal region just was not that bad. I own a convient store and a carpet store and if my projection were that far off I would try to find another market to get my income from like the casinos or something. That's right we already tried that but soon found that they are pretty good at hidding revenue and not tu!

Turning it over to our education system. This letter could drag on and let me vent my frustration over our under funded and seriously inadequate education system for quite some time but the nuts and bolts of this letter is this if you and your office do not find a way to fix this situation and stop putting the blame on the legislature I will make it my mission to persuade every one that comes in either of my stores not to support you or any of your supporters in the upcoming elections.

Thank you for your
time.
Sincerely
Scott E. Stradtner
