## **Governor Musgrove and Bob Rohrlack Discuss Issues With Area Development Leaders**

Gulfport, MS – Governor Ronnie Musgrove met with Gulf Coast economic development leaders this morning in the first of seven scheduled meetings around the state to introduce Bob Rohrlack, new Executive Director of the Mississippi Development Authority.

“It is important for those who work in economic development at the local levels to get to know Bob,” Musgrove said. “I want to continue the good work we’ve done in recruiting and retaining industry in Mississippi, and that will happen if we strengthen the relationship between the local entities and the state.”

Rohrlack started in his new position on December 3, 2001.
