Governor Musgrove Approves SB 2592

(Jackson, MS) – Governor Ronnie Musgrove approved SB 2592.

“This law gives property owners a greater voice and makes government more accessible to communities across the state,” said Musgrove.

SB 2952 revises state law regarding certificates of public convenience and necessity for any uncertificated area. Water and/or sewer districts that petition the Public Service Commission will give notice by mail to all property owners located in the area. Property owners will have the opportunity to voice their objections or participate as an interested party. The counties targeted by this legislation include Lafayette, Lamar, Leflore, Monroe and Pike.
