

Lynne Jeter, MS Business Journal – Quote for Eurocopter story, 072403

“As Governor, I look for sound investments for the State of Mississippi. We have invested close to \$2 million through ARC and MDA, provided \$1.5 million for workforce training, and a \$750,000 low interest loan to bring Eurocopter and over 125 high paying high tech jobs to this area. This is another example of the good things you can do when you work together to look for opportunities and set priorities. This is the type of investment that makes a difference in the lives of Mississippians. We are extremely proud to welcome Eurocopter to the state and we thank them for their \$10 million investment in Mississippi.”
