

2001 flag wins

We could not be happier with the vote for the 2001 flag. This vote sends a clear message to the nation that Mississippi is moving forward to create a state with vast opportunities that provides a good quality of life for our people. We see the honor in celebrating our past, but we must also have the courage to look to the future and build a positive legacy for our children. Our challenge now is to reach out to those who supported the 1894 flag and embrace our future together as we move Mississippi forward.

1894 flag wins

It is important that we accept the majority vote and move forward with the business of creating new jobs and better opportunities for every person across the state of Mississippi. It is also important that we recognize ___% of our people do not support the 1894 flag. We now must put our differences aside as we continue to create a state that provides a good quality of life for our people.
