2ND ANNUAL MDAH
SPRING SOCIAL STUDIES
TEACHERS WORKSHOP
MISSISSIPPI INNOVATORS
AND INVENTORS

Mississippians have always used their resourceful spirits to adapt to life in a changing world.

From the earliest Native American creative thinkers to the visionaries of the Victorian era and beyond, these innovators and inventors remain pioneers in a range of fields, including medicine, engineering, and technology. From ship-builders to farmers, from doctors to pilots, these forerunners and developers laid a foundation that continues to inspire creative Mississippians.

Join the Mississippi Department of Archives and History in Cleveland for our second annual spring teachers workshop series. Our spring workshops will be held at communities around the state to make it easier for local teachers to attend.

A .5 CEU credit is issued through Mississippi College to those attending all workshop programs.
