New Steamboat Line.
The charter of the Crescent City
Packet company has been filed with the
secretary of State. The domicile of
the new corporation is Mississippi City,
Harrison county. The purpose of the
enterprise is “the running and main-
tenance of steamboats and other water
raft in the Mississippi river and its
tributaries between points in Missis-
sippi and Louisiana.” The capital stock
of the company is $50,000, but business
may be begun when $10,000 cash has
been paid in.

Grenada College Opening.
President J. W. Malone and Secretary
J. W. Griggs have announced that the
opening of the Grenada College has
been postponed until October 4th on
account of quarantine regulations mak-
ing it difficult or impossible for pupils
disturbance to travel to Grenada.
It is suggested, as the safest plan, that
pupils provide themselves with health
certificate leaving home, in order to
guard against inconvenience and delay.

Capt. Hunnecutt Drowned.
Capt. Jack Hunnecutt was drowned
one night last week at the mouth of the
Sunflower river, below Satisfia. Capt.
Hunnecutt went to step from the
steamboat Mildred on to a barge and fell,
going down into thirty feet of water.
For years he had been in the employ of the
Yazoo City Transportation com-
He has come across three articles of
clothing formerly owned by “Dr. Gill,”
husband of Nancy Guilford, and once
an inmate of the jail; on each of which,
was stated, appears the hateful char-
acters “GS1,” which were also upon
a piece of a man’s under garment in
one of the bundles which was found in
the mill pond.

ONE MAUSER WAS LOADED.
It Went Off While Being Unloaded from
the Saratoga, at Brooklyn, and
Killed Wm. Hickey.

New York, Sept. 17.—A Spanish rifle
which Wm. Hickey did not know was
loaded went off while he was carrying
it from the transport Saratoga, at a
Brooklyn dock, and the man was
killed.
The Saratoga arrived here two days
ago with arms surrendered by the
Spaniards at Santiago and El Caney.
On board were 8,000 Mauser rifles and
200 tons of ammunition. One of them
engaged in unloading the cargo was
Hickey. He had some of the rifles in
his arms, when he stumbled, and one
of them was fired off. The bullet tore
a great hole in the man’s right side.
The rifles were not supposed to be
loaded, and the one that killed
Hickey came to have a cartridge in it
is a mystery.

and the extraordinary appearance is gradually but sensibly diminished; at last they meet, and perhaps the person he had taken for a monster proves to be his own brother."

A New Invention. — The New Boston, Massachutes, Whig, states that a gentleman in Boston, who owns a large chemical establishment, has discovered a new species of fire, which produces a most intense heat. It is produced by the mixture of tar and water. With this kind of fuel, a steamboat can pass the Atlantic, with the greatest safety. The discoverer declares that he can carry a steamboat from Providence to New York by using this fuel, for five dollars. It is said that the invention of the cotton gin doubled the value of every acre of land in the southern states, and we are of opinion that the discovery above mentioned, will double the value of the steam engine. It will be especially important to the engines which are employed upon rail roads, and will remove one of the greatest obstacles to the general use of locomotives upon our common roads.

At the time when Lee was manager of the Edinburgh Theatre, he was determined to improve upon stage thunder. For this purpose, he procured a quantity of nine
